THE DEATH OF MR. DENISON, (Democrat) member of Congress for the Luzerne district, was announced some days ago. The last time Mr. D. was a candidate his competitor was Mr. JAMES ARCHBALD; the first time, Mr. W. W. KETCHUM. It is stated, and doubtless correctly, that Mr. G. W. WOODWARD, who is now in Europe, and whose place as Supreme Judge will expire next winter, is desirous of Congressional honors, and will receive the Democratic nomination. He is confessedly a man of superior abilities and personal worth, but of extreme secession politics. On the Republican side, Mr. KETCHUM is proposed as a candidate; as, also, Mr. GARRICK HARDING. The former is generally known and esteemed throughout the State. The latter was the law partner, some years ago, of the late Mr. HENRY M. FULLER, and has earned a good reputation in the profession. We think it probable he will be the Republican candidate.

The Republicans want a special election to fill the vacancy, and the Democrats do not. As the time is comparatively short, it may be considered doubtful if a special election will be held.

DURING the French occupation of Mexico the United States extended a powerful patronage to the Liberals of that country. It was in consequence of remonstrances from Washington that the French troops were withdrawn and Maximilian left to his fate. Upon the capture of that personage his life was requested by Mr. Seward, as Secretary of State, and this request is reputed to have been the cause of his execution. The air of superiority which our Government exhibited had become so offensive as to be intolerable.

After the reported capture of Santa Anna it was stated that the Secretary of the Navy had dispatched a war vessel to demand his release, on the ground that he was taken from under the American flag. It is now denied that the vessel has been dispatched, and that Santa Anna was taken from an American ship.

Most sensible men are convinced that the sooner our Government washes its hands of the Mexican muddle, the better.

THE fast town of Chicago seems determined to ruin the business prospects of its old fashioned neighbor, St. Louis. The journals of the former are constantly inventing gross falsehoods whereby to worry and torture the press of the latter. First, cruel Chicago strips St. Louis of all its merit as a trade point and scouts at the idea of its aiming to become a great manufacturing centre. Then Chicago visits St. Louis with the cholera, and relentlessly kills hundreds of persons daily with the dread disease in order to show country folks how dangerous it is to visit the town during the prevalence of the imaginary epidemic. And to crown all, Chicago develops a master spirit of wickedness in filling the water reservoirs of St. Louis with hundreds of dead infants of all ages, sizes and colors. Of course, a country gentleman accustomed to drinking pure spring water, could not visit a city where he should be compelled to swallow such a mixture of decomposed human flesh and filth. Poor St. Louis! wicked Chicago!

IT DESERVES consideration that most of the newspapers which pitched into Mr. GREELEY most savagely for going bail for Mr. DAVIS, join in condemning the execution of MAXIMILIAN by the Mexicans. They protest that whatever be the deservings of the ex-emperor his taking off is against the best impulses of the age, and tends to beget new troubles in that unhappy country. A few of them, however, are floundering about, as usual, contradicting to-day what they said yesterday, and endeavoring to prove that while the political scaffold would prove a most beneficent institution here, it is unspeakably horrible inside the territorial boundaries of our neighbor. Even the action of the House at Washington in refusing to sanction the atrocities of JAUREZ sends no ray of light to the managers of these journals. We do not blame them. When nature denies common sense to people, it is useless to blame them for the deficiency.

MR. THADDEUS STEVENS recently indulged a correspondent of the New York *Herald* with a free talk about men and matters in Pennsylvania. The correspondent dressed the conversation up, and gave it to the public without delay. When Mr. STEVENS read the talk in print he felt constrained to deny, in his place in the House of Representatives, the perfect accuracy of the version. The public, however, will be apt to think the report substantially correct, and that the Great Commoner, in an hour of confidence, discoursed more freely than he afterwards found it convenient to confess. It is not unlikely he will repeat the indiscretion upon the first temptation. It "is a way he has."

THE Fenian leaders are said to attach peculiar significance to the reported note from the Russian government relative to Ireland. If this is a fact, we suspect their exultation will be brief. If Russia has sent such a note, it must be taken as an intimation to the British to stop meddling with the affairs of Poland, rather than the indication of a purpose to undertake the rectification of what is wrong in Ireland.

A NUMBER of gentlemen are desirous of the appointment as Minister to Mexico. It is most desirable that a man should be selected whom the Government has need of—one who has sense, courage and promptitude.

THE Philadelphia *Ledger* devotes a column to discussing the question "Do we live as long as we might?" A good many people, as matters go, live much longer than it is worth while to have them.

IF COL. ORNEY did not start off with his European letters as brilliantly as was anticipated, he is making ample amends by increasing in quality as he settles down to the work.

THE Democrats of Iowa have nominated as their candidate for Supreme Judge, Mr. John H. Craig, formerly of Washington county, Pennsylvania.

Railroad Collision—Fatal Result.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, July 12.—A collision occurred last evening on the Chicago and St. Louis road, two miles north of Gardner, in Grundy county, between the express passenger train going south and a freight train coming north. One brakesman was instantly killed, and a baggage man fatally injured. The baggage car, express car, with contents, and one coach were burned. The two engines were demolished and several passengers slightly injured. The freight train was running out of its regular time, and should have waited at Gardner until the passenger train had passed.

In Extraordinary Session.

SENATE RECONSTRUCTION BILL IN THE HOUSE.

Maximilian's Fate Discussed.

HIS EXECUTION JUSTIFIED.

CONFERENCE ON RECONSTRUCTION.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, July 12, 1867.

SENATE.

NEGATIVE VOTE LOST.

Mr. DIXON stated that he was unavoidably absent yesterday when the vote on the Reconstruction bill was taken. If present he should have voted against it.

MEXICAN AFFAIRS—MAXIMILIAN'S EXECUTION JUSTIFIED.

Mr. CHANDLER called up his resolution on Mexican affairs, and made a speech justifying the execution of Maximilian. He hoped Congress would not adjourn without expressions, not only of sympathy, but aid, if need be, to Mexico. If any European monarchy determined to fight Mexico, it must fight the United States also, and when the whole world could whip the United States on American soil.

FRONTIER DEFENSE.

Mr. WILSON asked that the resolution be laid aside to allow him to offer a bill authorizing the Secretary of War to raise four regiments of volunteers for frontier defense, and appropriating $1,648,000 to pay troops already called out for that purpose.

Mr. TIPTON obtained leave to offer a bill for a similar purpose.

Both bills were ordered to be printed.

MEXICAN AFFAIRS RESUMED.

The consideration of the resolution of Mr. CHANDLER was resumed.

Mr. FOWLER spoke against the policy of this government toward Mexico during her struggle for freedom. He reviewed the history of the Mexican troubles, and justified the execution of Maximilian.

Mr. JOHNSON could see no practical result likely to flow from this resolution. It was mere inquiry, without any legislative action. As he understood the facts, they were not as set forth in the resolution. The decree of 1865 was only intended to apply to brigands and guerrillas. Maximilian would have given Mexico a better government than she ever had.

Mr. NYE spoke in favor of the resolution. He regarded Mexico as naturally belonging to the United States. He eulogized Juarez. He was a great and good man, who, though not a warrior, had, like Lincoln, lead great armies to victory. He (Mr. Nye) had no sympathy with those imported monarchs, that come to subjugate and not to invigorate a country. The enlightened world would say amen to the fate of Maximilian. America, while it regretted his death and admired his bravery, could not deny his fate was a just one. He advocated a kindly and fraternal policy towards Mexico, and substantial aid if necessary.

Mr. HOWARD thought it fair to presume the Court Martial before which Maximilian was condemned acted fairly, in accordance with the laws of war. He spoke of the decree of October, 1865, as most inhuman and barbarous, the murderous decree of a temporarily successful highway robber. In his opinion Maximilian met a just and deserved fate. As the friends of Mexico and the independence of nations, it became the Senate of the United States to stand by Mexico in her struggles against Imperialism, which she has just overthrown.

Mr. YATES thought this subject deserved more discussion than it had received, and therefore moved the further consideration be postponed, and Senate go into executive session.

INDIAN DIFFICULTIES.

Mr. ROSS offered a joint resolution for the suppression of Indian difficulties. Ordered to be printed.

GUARANTEEING REPUBLICAN GOVERNMENT.

Mr. FOWLER offered a resolution instructing the Judiciary Committee to report a bill for the enforcement of the provision of the Constitution, requiring Congress to guarantee a Republican form of government, &c.

Objected to, and lies over.

RELIEF OF DESERTERS.

After the Executive session, Mr. WADE asked that the House bill declaring that men who left the army after the surrender of the rebels should not be deemed deserters, be taken up.

Mr. EDMUNDS objected.

MISSOURI ENROLLMENT BILL.

Mr. DRAKE moved to take up the resolution for the re-enrollment of the bill for the payment of the Missouri militia. This bill passed Congress, but failed to reach the President in time for his signature.

Considerable discussion ensued on points of order, when, by yeas twelve to nays eighteen, the Senate refused to take the resolution up.

Recess from 4 to 7:30.

EVENING SESSION.

The action of the House on the Reconstruction bill was announced.

Mr. SUMNER asked to call up his bill for universal suffrage in all the States.

Leave was not granted.

The Reconstruction bill was taken up.

Mr. TRUMBULL moved to refer it to the Judiciary Committee.

Disagreed to: 13 against 20.

Mr. EDMUNDS moved a non-concurrence and a call for a Conference Committee.

After a long debate, it was agreed to.

Messrs. TRUMBULL and HENDRICKS were appointed on the Conference Committee on the part of the Senate.

Mr. WILSON introduced a bill appropriating $1,600,000 for carrying the Reconstruction bill into effect, that being the sum estimated by the War Department for the purpose.

Objection was made, and the bill lies over.

UNIVERSAL SUFFRAGE BILL.

Mr. SUMNER called up his Universal Suffrage bill, and on motion of Mr. CONKLING, it was read at length.

Mr. EDMUNDS raised a point of order that Mr. SUMNER'S bill was out of order.

Mr. SUMNER defended his bill at some length.

The Senate voted the bill out of order.

Attempts were then made to take up several House bills, but objections were made.

At 9:10 the Clerk of the House announced the agreement of that body to the conference called for by the Senate on the Reconstruction bill.

The Senate then adjourned.

HOUSE OF REPRESENTATIVES.

TO FORFEIT LAND GRANTS.

Mr. JULIAN asked leave to introduce a resolution declaring forfeited to the United States all lands granted by Congress, in 1856, to States in the South for railroad purposes, which grants expired by limitation.

Mr. WOOD objected.

Mr. JULIAN moved to suspend the rules, and said there were now 3,600,000 of acres of the best land in the South tied up in the hands of rebel corporations, at the expense of poor men, whites and blacks, who should have some for their homesteads.

Mr. CHANDLER, as a member of the Select Committee on Southern Railroads, stated that the question of the relation of those roads to the Government was still under investigation, and argued that the action proposed by the resolution would be premature.

Mr. JULIAN expressed his willingness to modify his resolution so as to make it one of inquiry merely.

Mr. CHANDLER argued that it was a special question, and should be referred to the special committee having that matter in charge.

The rules were suspended—ninety-nine to thirty-three—and the resolution, modified to confine its operation to Mississippi, Alabama, Florida and Louisiana, and referring it to the Select Committee on Southern Railroads, was adopted.

NEW ORLEANS LEVEES.

Mr. BUTLER asked leave to offer an elaborate preamble and resolutions, reciting that the government of Louisiana had been declared illegal and void, and therefore no efficient means can be taken by the authorities for repairing levees, or issuing bonds for repairing the same; therefore resolving that the district commander shall have power to issue coupon bonds to the amount of four million dollars, at 7 3-10 per cent., and that this assumption of such debt shall be a condition precedent in the admission of the State.

Mr. WOOD objected.

Mr. BUTLER moved to suspend the rules.

The rules were not suspended, there being but twenty-four votes in the affirmative.

SENATE RECONSTRUCTION BILL.

Mr. STEVENS, of Pennsylvania, from the Committee on Reconstruction, reported back the Senate Reconstruction bill with several amendments, mostly verbal, as a substitute for the first section, declaring the true intent and meaning of the act of March 2d, 1867, to have been that the governments then existing in the rebel States were illegal, and therefore such governments, if continued, were to be continued subject in all respects to the military commanders and the authority of Congress. Among the new sections reported is one directing that none of the officers of registration shall pay any regard to the decisions or directions of the Attorney General, or any other officer of the Government, except as directed by Congress. The bill was debated until half past three o'clock, when Mr. STEVENS moved the previous question, calling for a vote on the various amendments.

The amendment substituting the first section of the House bill for that of the Senate was adopted.

The amendment referring to the Attorney General's decision was modified to read "No District Commander or officer of any Board of Registration shall be bound in his action by any opinion of any civil officer of the United States," and agreed to.

All the other amendments were agreed to, and the bill as amended goes back to the Senate.

EXECUTIVE COMMUNICATIONS.

The SPEAKER presented Executive communications as follows:

From the Secretary of the Treasury, transmitting, in compliance with resolution of March 6th, a statement of the number of officers of customs removed, names of the new appointees; also as to the expenses of the collection of customs during this year, 1865 and 1866.

From the Secretary of War, transmitting, in compliance with resolution of the 5th of July, a report of the Adjutant General relative to the execution and administration of the reconstruction acts.

From the Secretary of the Treasury, transmitting, in compliance with a resolution of the 8th July, a communication from the Commissioner of Internal Revenue, as to the amount of revenue received from the tax on distilled liquors.

From the Secretary of War, transmitting, in compliance with a resolution of July 9th, a report of the Paymaster General relative to necessary further legislation to facilitate the payment of additional bounties.

Laid on the table and ordered to be printed.

At a quarter past four recess till eight o'clock P. M.

EVENING SESSION.

The Secretary of War was instructed to inform the House what additional appropriation was requisite to carry out the provisions of the reconstruction act.

A BOUNTY BILL.

On motion of Mr. HOLMAN, the rules were suspended and the bill providing that the widow, minor children or parents of any soldier who shall have died after being honorably discharged, shall be entitled to receive the additional bounty. Read three times and passed unanimously.

RESOLUTION TO CONSTRUE.

Mr. ELA moved to suspend the rules to enable him to introduce a joint resolution construing the tenth section of the act of March 2d, so as not to prevent printing in connection with the issue, transfer or assignment of Government bonds, notes, official envelopes, or confidential circulars used in the Executive Department, by their own employees.

A vote taken on suspending the rules resulted yeas thirty-four, nays forty-one—no quorum.

A call of the House was made and ninety-nine members answered—more than a quorum.

A vote on the suspension of the rules was again taken—yeas thirty-seven, nays forty-nine.

So the rules were not suspended.

The joint resolution, by unanimous consent, was then introduced and referred to the Judiciary Committee.

A resolution to print ten thousand copies of the forms of proceedings in bankruptcy was laid on the table.

Mr. PAINE introduced a militia bill. Referred.

Mr. MORGAN presented a memorial of the Arkansas Assembly for the appropriation of two and a half millions, to aid in the construction of levees on the Mississippi river.

Mr. INGERSOLL objected to its reception.

Considerable debate ensued.

A message was received announcing that the Senate had disagreed to the House amendments to the Reconstruction bill, and asked a conference. A Conference Committee was agreed to. Messrs. STEVENS, BOUTWELL and HOLMAN were appointed on the Committee.

The discussion on the loyal status of Arkansas was resumed by Messrs. KELLY, NIBLACK and others.

Without acting on the question of the memorial, at 9:30 the House adjourned.

THE SURRATT TRIAL.

Important Testimony for Defense.

SURRATT AT ELMIRA, N. Y., ON ASSINATION DAY.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, July 12, 1867.

Detective Claver testified to facts concerning the arrest of Mrs. Surratt and a conversation with her in which she said she saw Booth at two o'clock that day, had not seen John Surratt for two weeks, he was in Canada, and she got a letter from him; that a colored woman in her house also said she had not seen Surratt for two weeks; also testified to seeing Lloyd at Surrattville the next day, who denied that any men passed there, for he had been up all night, and called God to witness he did not know the men. Witness went to Weichman's room, 172, and found two handkerchiefs with Surratt's name, and told Weichman to take possession as he might need them. Witness went to Canada with Hallahan; talked with him about the handkerchief, and he said he lost it in some depot.

Jos. A. McDevitt also testified to the arrest of Mrs Surratt. She said she had not seen her son since the fall of Richmond; the colored woman said she had not seen him for two weeks. Witness told Weichman to report at his office next morning, and to consider himself under arrest. Witness took Weichman to Canada.

Lieutenant Charles Kappen corroborated this testimony. The colored woman said she had not seen Surratt for several days.

Dr. E. H. Wyvill, residing in Prince George's county, Md., testified he never drove any horses home from Mrs. Surratt's house; was never at her house in his life.

Miss Honora Fitzpatrick recalled—Witness occupied Mrs. Surratt's room; slept with her; remember the night of the assassination; did not see John Surratt at the house that day; he was home about two weeks before that. John was not at the house on the night of the assassination; took no supper. Witness used to see Atzerot at the house; he was a good deal in Weichman's company; he used to wear Weichman's clothes. Witness knew a man who used to come there named Wood; he never passed at the house as Payne; witness first knew him as Payne at the conspiracy trial; was introduced to witness by Weichman as Wood. During supper on the night of the assassination witness heard footsteps going up stairs; they did not go into the parlor; after supper all went into the parlor except Anna, who was not well, but went to bed. In the parlor those present talked generally. Weichman remained some time; witness and Miss Jenkins were teasing him; after about an hour he retired, leaving witness, Miss Jenkins and Mrs. Surratt in the parlor. Witness did not leave the room during that time. Mrs. Surratt did'nt appear excited; did'nt walk up and down with her beads in her hand, and ask Weichman to pray for her intentions, neither did he reply he did not pray for people's intentions unless he knew what they were: Witness and Miss Jenkins did not bid him good night at his room door. Witness did not hear Weichman say he had suspicions and would communicate them to the Government. Witness remembers the night Mrs. S. was taken to the Provost Marshal's. Capt. Smith came about 10 o'clock and took her away. Miss Jenkins, Miss Annie, Miss Ward, and witness were present; don't recollect that Weichman asked Mrs. Ward to let him see a letter; she had not seen Mrs. Surratt whisper to Annie; did not hear the latter say, "O mother, think of being taken down there for such a crime." Did not hear Mrs. S. say Booth was only an instrument in the hands of Providence to punish this proud and licentious people; did not recognize Payne till the night they were arrested and reached General Augur.

Charles B. Stewart, merchant tailor at Elmira, testified—On the morning of the 13th of April, 1865, a man came in with a peculiarly cut coat—a skeleton coat—made without linings and plaited at the belt. He remained from ten to twenty minutes. Witness' attention was particularly drawn to him. Witness has seen that man again, to-day, at the jail, and the prisoner at the bar witness believes to be the man.

John Case, living in Elmira, and Assessor of the city, testified—Kept a clothing store in 1865; on the 15th of April came to witness' store and asked for a peculiar kind of shirt. Witness did not have the kind wanted. Witness remarked that we have received some very sad news this morning. This man replied, as witness at first thought, disrespectfully. Witness has seen the man since at jail here. The prisoner at the bar is the man.

Frank H. Atkinson, Alderman at Elmira, and book keeper for Stewart, testified that on the 13th or 14th of April, '65, a man came in the store with a dark grey coat on plaited at the waist, and fastened around with a belt; have no doubt the prisoner is the man. He remained about ten minutes, and was talking with our cutter.

Joseph Carroll, residing at Elmira, and cutter in Stewart & Offort's store, testified that the prisoner was in the store on both the 13th and 14th of April, talking about clothing; we did not have the kind of goods he inquired for.

Court took a recess until to-morrow.

Columbia Affairs—Acosta Inaugurated President—Cholera at Nicaragua.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, July 12.—A Panama correspondent states that General Acosta was formally inaugurated President of Columbia, and a Cabinet formed.

The cholera had again appeared in Nicaragua.

Attempt at Murder and Robbery.

[By Telegraph to the Pittsburgh Gazette.]

FORTRESS MONROE, July 12.—Several blood thirsty attempts at murder and robbery have been recently perpetrated in the vicinity of Norfolk, and Portsmouth by parties of negro highwaymen. The last was a farmer named Oakum, while on his way to Portsmouth. About five miles out his wagon was stopped, and he was set upon by two negroes, who struck him on the head with a heavy iron instrument, and afterwards inflicting similar wounds about the body. They then robbed him of all his money and valuables and made their escape into the woods. Not long after the occurrence Mr. Oakum was picked up by persons in the neighborhood and carried to his home, where he now lies in a precarious condition. The authorities have started a posse in pursuit, and the most energetic measures have been taken to effect the capture of the villains.

THE SULTAN IN LONDON.

LONDON, July 12.—Abdul Aziz, Sultan of Turkey, who left Paris yesterday, after a pleasant voyage across the channel, landed to-day on the shores of England. He was received by the Prince of Wales, acting for the Queen, and by His Majesty Ismael, Sovereign of Egypt, and was by them escorted to the City of London, where he met with an unusually brilliant and imposing reception. The London and Dover Railway Station, in which he alighted, was richly and appropriately decorated, and the streets through which he was to pass were covered with flags and streamers and spanned by triumphal arches and festoons of flowers. The entire route of procession from the railway depot to Buckingham Palace was guarded on both sides by unbroken lines of troops. Behind these, vast multitudes of spectators were packed in a solid mass on the side walks, and crowded every window and house top. When the Sultan, accompanied by the King of Egypt and Prince of Wales, passed between the lines of soldiers, the people, struck by the novelty of the spectacle, manifested the most unbounded enthusiasm, and the shouts of welcome, cheering and waving of handkerchiefs and banners did not close until the Sultan had entered the gates of the Palace. The royal residence has been placed in a state of complete preparation for the accommodation of His Ottoman Majesty, and will be occupied by him during his stay in London.

FROM WASHINGTON.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, July 12, 1867.

THE BOUNTY MATTER.

The Paymaster General, in response to a resolution of the House, states that no further legislation is necessary to facilitate the payment of the additional bounties. As many Paymasters and clerks are now engaged in that branch of the service as can be profitably and judiciously employed.

FINANCIAL MATTERS.

An official report from the Secretary of the Treasury shows the expenses of collecting revenue from Customs for the year ending December 31, 1865, were $5,628,180, and for the year ending with December, 1866, $6,267,894.

The receipts from Customs for the year ending December, 1865, were $130,750,161, and for the year ending December, 1866, $151,487,531.

The excess of expenditures in collecting revenue in 1866 over 1865, viz: $639,709, is attributed in a great measure to the re-opening of the southern ports, and the appointment of officers for the same. At many of these ports the expenditures exceed the receipts, and the officers are used principally for the preventive service. The excess is caused also by the increase of compensation, and by the appointment of officers necessary to carry out the smuggling act.

The Secretary of the Treasury, in answer to a resolution of the House, asking for information as to the amount of revenue received from the tax on distilled spirits during the last fiscal year, says, in his official reply, that it is impossible now to communicate the information, because only a part of the returns from Collectors have been received at the Internal Revenue Bureau. He adds that no time will be lost in obtaining the necessary information.

RECONSTRUCTION INFORMATION.

The Secretary of War sent to the House to-day a mass of papers, telegrams, etc., relative to the execution of the reconstruction acts, most of which have been published.

One order, issued by Secretary Stanton, May 22d, is addressed to General Grant, urging upon him the necessity of keeping troops always ready to suppress riots etc., which was promulgated by General Grant to all the district commanders.

On the 20th of June Gen. Grant sent the following to Maj. Gen. Ord:

General: A copy of your final instructions to the Board of Registration, of June 10, 1867, is just received. I entirely dissent from the views contained in paragraph 4th. Your views as to the duties of Registers to register every man who will take the required oath, though they may know the applicant perjures himself, is sustained by the views of the Attorney General. My opinion is it is the duty of the Board of Registration to see as far as it lays in their power that no unauthorized person is allowed to register. To secure this registers should be allowed to administer oaths and examine witnesses. The law, however, makes the district commanders their own interpreters of their power and duty under it, and in my opinion the Attorney General or myself can no more than give our opinion as to the meaning of the law, neither can they enforce their views against the judgment of those made responsible for the faithful execution of the law, the district commanders.

Very respectfully, your obedient servant,
U. S. GRANT, General.

THE POSTAL TREATY.

In the recent postal treaty between Great Britain and the United States, the charge on books, packages and patterns, or samples of merchandize, should not to be less than three cents in the United Kingdom and six cents in the United States for every four ounces, and not for every forty, as incorrectly printed in some of the newspapers.

FUNDS IN THE TREASURY VAULTS.

The Committee appointed by Secretary McCulloch, to count the funds in the vaults of the Treasury Department, have completed the investigation, and the count shows a few dollars in the Treasury over the amount that the books call for. The amount of National funds which have passed through the Treasurer's hands since March, 1861, is about $14,500,000,000.

CASE OF SANTA ANNA.

Alive and a Scoundrel.

[By Telegraph to the Pittsburgh Gazette.]

SPRINGFIELD, MASS., July 12.—A letter, dated Detroit, has been received at North Adams, from Rev. S. M. Merrill, Methodist Minister, lately reported drowned at Plattsburg, New York, and there is no doubt but that he is alive and a scoundrel.

Playing Policeman—Bold Attempt to Inveigle a Young Lady into a House of Ill-fame.

An attempt was made last night by a black hearted villian to inveigle a young lady, a stranger in the city, into a house of ill-fame, which would have been successful but for the timely interference of a friend. The young lady referred to arrived in the city in the nine o'clock train, on the Pennsylvania Railroad, and started down Grant street to Second to visit a friend. She had proceeded as far as Seventh street when she was accosted by a number of "night prowlers" and insulted, when she called for the police. In answer to her call a man stepped up to her, saying he was a policeman, and asked her where she wanted to go. She informed him that she wanted to go to No. — Second street, and being a stranger in the city she did not know where to find it. He offered to conduct her thither, and as he had represented himself as a policeman she accepted the offer, and started with him; but, instead of taking her toward Second street, he took the opposite direction, and had proceeded up Grant street to the Grain Elevator, and was about turning up Washington street, when he was overhauled by a friend of the young lady, and made his escape before the friend had time to "mark" him. The rescue was a mere accident, and was brought about, it would seem, providentially. The gentleman who escorted the lady is a distant relative, and having been at the house at which she intended visiting, was informed that she would be there that evening, and that she would come in on the eleven o'clock train, whereupon he volunteered his services to meet her at the train and escort her down; shortly after nine o'clock he started for the depot for that purpose. He passed up Grant street to Seventh, the place where the lady had been accosted by the ruffians, and in passing through the crowd which had collected there, heard the street and number of the house which he had just left mentioned by one of the party, and on stopping a moment heard some one say: "he will take her up Washington street, to No. — Crawford street." Without waiting to hear anything farther, he started up Grant for Washington, and overtook the parties as stated above.

The foregoing is an evidence of the defectiveness of our police arrangements. An efficient and well regulated police force is the pride of every city, and it is something every city should have, as far as possible. It is not only demanded by our citizens, whose safety, comfort and welfare depend upon it, but by travelers and strangers, who rely on it, and it alone, for protection and convenience in passing through our city. It is a difficult matter, we admit, to arrive at perfection in anything; but if we cannot have perfection, let us be as near perfect as we can. Is there not an ordinance requiring the police force to wear a prescribed uniform dress? If there is not, there certainly should be, as it would not only save the police trouble, but be a great convenience to strangers. There is scarcely a night or a day passes that some of our police do not experience difficulty from their not having some mark of distinction. There are but few men, no matter how reckless they may be, who will assault or interfere with an officer in the discharge of his duties, and on the other hand there are as few if not a less number of men who will allow a stranger to seize hold of them roughly, as is the custom of some officers, without making some effort to protect themselves. The time has arrived in our city, like many others, when some improvements in this direction are necessary, and we hope to see them made at an early day.

Victimized.

James McGeary, of Louisville, Kentucky, was the "victim of misplaced confidence" yesterday morning, to the "tune" of a hundred and forty dollars. He arrived at the Union Depot, on the twelve o'clock train, on the Pan Handle Railroad, accompanied by a man who got on the train at Newark, Ohio. This fellow had "cultivated" McGeary's acquaintance to such an extent during the trip that by the time they arrived at the Depot he knew as much about his business as McGeary did himself, notwithstanding the two had never met before. He ascertained that McG. had about a hundred and forty dollars in his pocket, and, it appears, knew how to get it out. Having learned that McGeary had a friend in the city, and when he was anxious to find this new found friend, he generously offered to assist him in his search for him, proposed that they should take boarding together, to which the dupe consented, and was conducted to a house on Wylie street, where they were shown to a room which they were to occupy jointly. The stranger suggested to McGeary that it would be best before retiring to get their pocket books "checked," and if McGeary would give him his wallet he would take both down stairs and get receipts for them. The pocket book was given up and the stranger went down stairs with it. He did not return and no receipt for the money was given. After waiting awhile, McGeary returned to the depot and stated his case. Lieutenant McMullen, of the night police, went in company with the victim to search for the victimizer. McGeary judged from something the other man said that he proposed going to Allegheny or Birmingham. Search was made in both places, but entirely without effect. McGeary did not appear intoxicated, but evidently "had something the matter with him." He was exceedingly drowsy, and could keep awake only with difficulty, and expressed the belief that his "friend" had drugged him, or put him partially under the influence of chloroform.

Prisoner Killed in Attempting to Escape From an Officer.

Wednesday last Patrick Scanlon, of Sharpsburg, telegraphed to Harrisburg for the arrest of one Patrick Moore, who, it was stated, would reach that city by the express train of the Central road, upon which he left this city. Moore was accused of stealing from Scanlon sixty dollars and a gold ring. The accused, recognized by the description given of him in the telegram, was arrested on the train, and fought desperately before he was finally secured. Thursday morning officer Roat, of Harrisburgh, started with him for this city, securing him with handcuffs, the officer attaching one to his own wrist, and the other to the prisoner's. Moore behaved himself very well on the train, evincing no disposition to be troublesome or to make his escape, and was permitted (the handcuffs being taken off) several times to go unattended to the water closet, or saloon. Friday morning, when near Blairsville intersection, he again went to the closet by permission. The officer's attention being attracted by a noise he sought his prisoner and discovered him in the act of jumping backwards out of the car window, having made the leap as the officer endeavored to grasp hold of him. The train was stopped, search made, and the prisoner found lying alongside the track insensible. The back of his head was crushed to such an extent that he lived but a few minutes. The remains were brought to the city, and recognized as those of the person who committed the robbery. Thirty dollars and a gold ring were found in the possession of the deceased. He seemed about thirty years of age. We could learn nothing concerning him. The body was coffined and taken in charge of officer Roat to Westmoreland county, in order that an inquest might be held.

Through a Coal Pit.

"Greenhorn" of the *Dispatch* yesterday got his "back up," and with those whiskers filled the picture to some degree of the feline creature he would have us secure to assist nature in supplying us with hirsute appendage. He indulges in self-praise, (a weakness with him,) and speaks disparagingly of us, but makes the confession that we "manipulated and repolished to good account," his "readable general item" about his experience as a "greenhorn" in a coal pit. The perusal of the said adventure of "greenhorn" in a coal pit afforded us amusement. We must now consider it as a sample of the *Dispatch* man's "readable general items," although we felt charitable, and left open for him the excuse of bad proof reading or "blundering compositors." Our kindly disposition was not appreciated. "Greenhorn's" blood is up, and he would "claw" us for speaking admiringly of what nature has supplied him and deprived us up to this stage of our existence. In view of the sensations which he so recently experienced on his "first passage through the *chimerian* darkness of a narrow, contracted coal pit, nearly a mile in length," he should manifest a more Christian spirit. If we doubted before, we doubt no longer that "greenhorn's" nerves are weak. The description he gave of his perilous situation in the "chimerian" darkness, &c., will fail, we think, to convince any one otherwise, notwithstanding they may "*have never yet went* through a coal pit." Fearing we might get provoked, should "greenhorn" attempt a feline demonstration, we will not further disturb his equanimity, and be content to regard the aforesaid description of his perilous adventure in a coal pit as a sample of the "readable general items" with which he favors the journal to which he is attached.

The Independence Hose Company.

The Independence boys have just received another supply of hose, and should, by all means, have a steamer. This company is located in a portion of the city where fires are more frequent than in any other locality, and a steamer is needed at this point more than any other place in the city. The citizens of that ward should take the matter in hand at once. The company is an old one and has been very efficient so far as their facilities extend, and we have no doubt would make one of the most efficient companies in service if properly equipped. A few hundred dollars expended in this way might save thousands to the residents of that ward. Let them have a steamer by all means.

THE COURTS.

Court of Quarter Sessions.

[SIXTH AND LAST WEEK.]

This Court met Friday at ten o'clock, Hon. Thomas Mellon on the Bench, Col. L. B. Duff, District Attorney.

UNSOUND MEAT CASE RESUMED.

The case of the Commonwealth vs. Henry Hershauser *alias* "Dutch Henry," indicted for selling flesh of diseased animals, was resumed, the prosecution continuing their evidence.

Samuel Beitler testified—Reside at East Liberty; know Mr. Hershauser to be engaged in tanking off "dead stock;" know of his agent, Mr. McIntyre, purchasing such stock; never saw Hershauser himself buying stock; never saw any dead animals taken from the stockyard except those taken to be "tanked," or to the factory; do not know where he sells, or of his selling meat at all; remember of his shipping a car load of dressed hogs east, last winter a year, and made the remark that they were as fine looking hogs as I had ever seen.

A. J. Woolslair testified—Live at East Liberty; had been ticket and freight agent on the Pennsylvania Railroad, there. Know defendant; he is a drover and butcher; has a slaughter house; don't recollect of ever being about it; have been at the stockyards, and observed him buying good stock and crippled stock; know of his shipping, last winter a year ago, hogs to Johnstown; some were very nice, and some were bruised and not such as witness would like to eat; a hog with a broken leg he would consider feverish; some of the hogs were considerably bruised; defendant shipped hogs to Johnstown several times, and noticed this damaged stock among them. Cross-examination—Never saw any crippled stock butchered by defendant; but saw hogs after they were butchered that had been crippled; could tell this by the appearance of the broken legs, the blood having settled around the bone; saw a number, two, or three, of such among those shipped to Johnstown by defendant. To the Court—When I was in the business, I never knew any crippled stock being bought for "tanking," except such as were considered "dead," and knocked in the head before placed in the wagon; "crippled" stock is sold for about one-half more than "dead," and are much more valuable for tanking purposes.

John Jeffers testified—Live at East Liberty; keep the Western Exchange; know defendant; he is a cattle dealer and butcher; have seen him buy good stock; also inferior stock, crippled or damaged in transportation; was at his slaughter house once, but did not notice what kind of stock was being slaughtered. Have seen defendant take crippled stock from the yard, but did not observe where it was taken; saw one of his men kill a crippled steer about two years ago; it was taken down and sent to the "dead hog" factory. Have not seen defendant buy any stock for over a year.

Martin Grady testified—Reside at Negley's run, near East Liberty; know defendant; he deals in stock and butchers; never saw him slaughtering. Have seen him buying crippled stock; but cannot say what he did with it. Was in his slaughter house a year ago last winter; saw some dressed beef there; about the same time saw him have some dressed hogs at the railroad depot for shipment. Cross-examined—Have been a butcher since I was a boy; had there been anything wrong with defendant's dressed meat, I would have noticed it.

Peter Clements testified—Also resided at East Liberty; was a drover; five years ago was in partnership with defendant; had seen him, within a year or two, buy stock, sound, crippled and dead; had sold to him crippled stock (with sore feet) good enough for any one to eat; stock crippled (smothered) on the cars are not fit to eat. Cross-examined—Did not know where defendant sold meat.

Thomas W. Lindsay testified—Have been in the cattle business; know defendant very well; he buys stock of all kinds; never recollect of being at his slaughter-house, and do not know what kind of stock he slaughters; never saw him sell or offer to sell any meats; saw some hogs at the railroad depot said to be his. Cross-examined—Cattle footsore from traveling would not be unsound for meat.

J. B. Huff testified—Reside in Wilkinsburg; in the business of selling stock; defendant was in the same business. He is now dealing principally in "dead stock." Witness could nearly smell the factory from where he lived. This witness further demonstrated the weakness of the Commonwealth's case.

John Curwin testified—Live in Allegheny; was a drover; called defendant one also; did not know that he was a butcher, or anything else pertaining to the case.

John Riley testified—Buy dead hogs. Know defendant buys crippled stock, and slaughters it at his slaughter house; did this during last winter. Could not say what he did with the meat. Cross-examined—What I saw killed were two hogs; helped to scald one of them; one was "split," and the other had its leg broken. That is all I know; was at defendant's slaughter house but once.

Uriah Laughlin testified. Am a butcher in Lawrenceville; know defendant, but nothing about his business.

Col. Duff said he desired to call two or three other witnesses, for whom an officer was in search. The Court said they might be called if they came before the close of the case.

THE DEFENSE.

A. M. Brown, Esq., for the defense, said that while the charge in the indictment had not been sufficiently made out, he would call a few witnesses to controvert some of the testimony produced, in order to destroy all suspicion of culpability. The offense charged was that defendant knowingly and deceitfully sold impure meat. The Commonwealth had failed to prove this. Patrick Bannon testified that during the first months of the present year the defendant exposed for sale unsound hogs in the Diamond Market; his testimony was not positive, but he endeavored to create the impression of the guilt of the defendant. This man Bannon would be shown as a drunken, worthless fellow, unworthy of belief.

Mr. Douglass, weighmaster at the Diamond Market, testified—During last winter defendant had no hogs at the market, to my knowledge. My business is to weigh hogs sold. Know Patrick Bannon; have heard his character for truth discussed; would not believe him under oath. Cross-examined—Weigh all that is sold at wholesale in the market; the city ordinance requires a tax to be paid, whether articles are weighed or not. Do not notice particularly as to the quality of meat. Have heard quite a number within the last year speak of Bannon and say they would not believe him on oath; he is about the market pretty much all the time.

William Peters testified—Know Patrick Bannon; he had a stall in the Diamond Market; people say he is a drunken fellow, and from what is said about his character would not believe him under oath; this was his reputation about the market, and also in the country.

Jacob Haus testified—Butcher in Diamond Market for three years; during January, February and March last Hershauser was not in market; had no hogs there. Know Patrick Bannon; he is always about the market; he does not speak the truth; the butchers generally speak badly of him. [Witness is among those indicted for selling impure meat.]

Jacob Ahl testified—Know Patrick Bannon by sight; heard several drovers and butchers say his reputation for truth was not very good; never heard anything very good about him.

Constable Thomas testified—Have been on duty at the Market for two years; don't think defendant sold any hogs there last winter; might have sold some; know Bannon; his reputation for truth is pretty bad; don't think I would believe him under oath. Cross-examined—Saw defendant at the market frequently last winter; don't know that he had his men there selling.

Adam Huffman testified—Have attended the market as butcher for eight years; did not see defendant there last winter with hogs, if he had been there would have seen him. Bannon was about the market all the time; would not believe him on oath. [This witness is also one of the indicted.]

Jacob Martin sworn—Attend market, but not as a butcher; gather bones; was at market pretty much all the time last winter; did not see defendant there with hogs for sale. Also know Patrick Bannon, and from my knowledge of him would not believe him under oath; he is not very well spoken of in the market-house; gets drunk and raises disturbance with the butchers.

Philip Berger recalled—Also had a stall in Diamond Market; did not recollect of defendant having hogs there last winter; might have known if he had. Did not know anything good about Patrick Bannon.

Andrew Calthaller testified—Butcher; had a stall in Diamond Market; did not know of defendant having sold hogs during last winter. Had known Bannon for about two years; would not believe him on oath. Cross-examined—Am indicted with other butchers. Bannon had trouble with the butchers in the market; one time a man went to dinner and Bannon sold a hog for him and when the man came back Bannon would not give up the money.

John Wickham testified—Butcher for defendant cattle, sheep, hogs, and calves; killed none but good stock, as good as any butcher dare buy; do all the killing myself; never saw any bad stock in or about the slaughter-house; had any bad stock come there would have sent it to the factory; have been butchering for Mr. Hershauser for about three months.

Jacob Ahl recalled—Defendant's slaughter-house adjoins my premises. Have been in it off and on for two years; never saw any bad or unsound stock butchered there, nothing but what was sound and could walk.

John Calthaller testified—The reputation of Patrick Bannon for truth is bad; would not believe his oath. [This witness is another of the indicted.]

Here the evidence in the case closed.

Major Brown, in a brief address to the jury, said it was essential to establish the charge against the defendant to prove the sale (or offer to sell) of impure or unsound meat as food, with guilty knowledge. It was scarcely necessary to say that this had not been proven, after some thirty or forty witnesses had been called. The "dead animal" business was one in which the counsel or any of the jury might not wish to engage, but yet it was a lawful business, in the carrying on of which some of the finest and most delicate of toilet articles were manufactured. Of all the witnesses called, not one pretended to say that Mr. Hershauser had ever sold or offered to sell one pound of unsound meat. Philip Drum, whose taste as a butcher was exclusively in the sheep line, did say that he saw in the defendant's wagon, standing in front of Jacob Kurtz's butcher shop, in the Ninth ward, some bruised beef, which he considered unsound. This amounted to nothing, not even to a suspicion. But Mr. Kurtz was called, and stated that he dealt with the defendant, and bought of him dressed meat of which no complaint could be made as to quality. The case was of great importance to the defendant, and while the jury could not properly do otherwise than acquit, it was important for the defendant to show his entire innocence, in the view that any suspicion caused by his prosecution would be likely to greatly damage him pecuniarily in his business. The testimony of Drum proved nothing. Patrick Bannon testified more directly, but he had been contradicted, shown to be unworthy of belief, and had besides admitted his guilt of the offense charged against defendant. The only other witness, whose testimony was in any degree damaging, was A. J. Woodslair, and his observations were as valueless in the way of sustaining the charge as those of Mr. Drum. The case arose with others from public clamor, caused by the Press, and the Grand Jury had entered into an investigation, the result of which was the indictment of Mr. Hershauser. The investigation was entirely proper, and the evidence adduced showed that, so far as the defendant in this case was concerned, he was to be held guiltless. The jury, therefore, would relieve him from the cloud which hung over him, seriously damaging him in his business.

Col. Duff, while he might not seriously insist on the conviction of the defendant, said that it having been proved he bought crippled stock, the meat of which was considered unsound, his explanation as to what disposition he made of it was not satisfactory, or consistent with innocence, if indeed anything amounting to an explanation had been offered. He bought the crippled stock, which one or two witnesses stated was butchered, as if for market, not sent away for grease manufacture. Woolslair saw damaged hogs at the depot in East Liberty, and shipped them for defendant to Johnstown. Thus there was *some* evidence that at least *some* of the damaged or crippled stock was sold. The contradiction of Patrick Bannon was not successful, for the reason that opportunity afforded to do so explicitly had not been used. Bannon, while on the stand, pointed out in Court one of defendant's employees, whom he said he saw having damaged hogs in the Diamond Market. Other witnesses had been called as to the matter, but what reason could be given for the omission to call the person who knew best whether Bannon told the truth or not? Bannon's character had been attacked by the butchers, but the jury would make allowance for this, remembering that some of the butchers who thus testified were indicted as the defendant.

Judge Mellon referred to the manner in which the case came before the Court, (by special presentment,) thus accounting for the tediousness or length of time occupied in the trial, there being no particular prosecutor, and no person specially interested in hunting up evidence. The fact was proven that the defendant purchased crippled and dead stock, and also good stock, and there was some evidence that he butchered crippled stock. It was for the jury to say, under the evidence, whether the meat of the crippled stock butchered was unsound or diseased, and sold with this knowledge. Although there might be different opinions entertained by butchers on the subject, the law presumed that in the conduct of their business they should know the character of the meat sold by them. It was not necessary, if it was believed defendant sold, or exposed for sale, such meat, that it should be directly proven he had knowledge of its nature, but the jury were to judge of this from circumstances; nor was it necessary, as to the selling, to prove that the meat was exposed for sale at any particular place, or that he said anything as to this; that he held out to the public in a general way that he had such meat for sale would be sufficient. The testimony as to selling was meagre. As a rule of law, where a defendant had it in his power to produce witnesses in a matter of defence, and did not call them, the presumption was that such explanation would be against him. The fact that the defendant had a grease factory, and purchased crippled stock, and that he did not call his employés and others to prove what disposition he made of crippled or unsound stock purchased, was a circumstance in the case, of itself not sufficient to establish guilt, but to be taken in connection with other circumstances.

The jury found a verdict of "not guilty, defendant to pay the costs."

VERDICTS GIVEN.

Verdicts of not guilty were rendered in the following cases:

Commonwealth vs. Martin Fisher; indictment larceny, on oath of Wm. McKee.

Commonwealth vs. James McGovern; indictment larceny of hogs; Albert Young prosecutor.

Commonwealth vs. Lewis Hilkey; indictment selling liquor without license; Rudolph Drusadow, prosecutor, to pay the costs.

Commonwealth vs. Frank J. Guth; burglary; Wm. Kennedy prosecutor.

Wm. Murdoch and Wm. Robinson; larceny; John Hamilton and Lafayette Dickson prosecutors. The defendants had been in jail six months.

JURY DISCHARGED.

The District Attorney announcing that all the cases ready for trial at this term had been disposed of, the jury in attendance was discharged, with the thanks of the Court, &c.

Notice was given that parties defendant would be required to renew their recognizances, and that in cases where there would be no change in the sureties, the Clerk of the Court was directed to take the bail.

OTHER CASES.

John Dugan, convicted of assault and battery, was sentenced to pay a fine of thirty dollars and costs.

John Stewart, complained against by Catherine Forney for surety of the peace was ordered to pay the costs.

Diseases Tending to Consumption—Catarrh.

Catarrh is a term used to denote an inflammation of the mucus membrane of the air passages. When such inflamation is confined to the Schniderian membrane, it is called coryza. If the frontal sinuses suffer, producing pain in the forehead, the disease is termed gravedo. A chronic catarrh, involving the posterior nares, producing ulcerations and excretions of the mucus surface, is designated ozœna. Now the slightest cold tends to consumption. Look at the condition of things. The capillaries of the skin are contracted, the waste of the system usually eliminated through the pores of the skin, is thrown back into the circulation, poisoning the blood. The internal vascular system becomes congested by the excess of blood in the internal organs. Here inflammation is set up and the mucus membrane of the nose is thickened, and the submucus blood vessels are disturbed, soon a leakage takes place, and a discharge begins. That discharge, unless speedily removed, soon degenerates into puss. Now mark the result of a simple cold as to its bearings on consumption. First, one means of blood purification by the skin is obstructed. Secondly, the congestion of the nasal membranes decreases the diameters of these tubes, and thus obstructs the passage of air to the lungs, and the egress of carbon from them. In this way the blood is loaded down with waste matter for want of oxygen, the great blood purifier, and for want of an outlet for the accumulating poisons. Nor is this all. The taste is blunted, food is not relished, nutriment becomes scanty, and the whole system becomes debilitated. And we showed in our former essay that debility is a prolific source of turbercle. If the difficulty continues, matters become rapidly worse. The discharge increases, the mucus membrane breaks down, nasal bones become involved. The accumulations of purulent matter gives out an odor intolerable, disgusting. Over this polluted tract the air passes into the lungs, carrying into the lungs the most loathsome and corrupting stench, while the corruption itself trickles down the larynx and trachea, excoriating and inflaming the whole passage, and involving finally the bronchia and lungs themselves. Many a victim has fallen a prey to consumption, just through the exciting cause of a cold in the head protracted into a chronic catarrh. Yet many will complain of catarrh for years, unconscious of the peril that threatens them. Every slight irritation of the air passages of the nose should receive prompt attention lest it runs into loathsome ozœna, which has baffled the skill of so many of the profession, and tormented the sufferer till consumption has closed the scene. The worst cases need not despair, for Dr. Aborn has discovered a local and constitutional treatment which in most cases is entirely successful.

SINCLAIRVILLE, N. Y., July 5, 1867.

Dr. E. S. Aborn, 134 Smithfield street, Pittsburgh, Pa.:

DEAR SIR: It is with a grateful heart that I write these humble lines, for the purpose of informing you that our daughter has been saved from a premature grave as the result of your superior skill. You will remember, no doubt, that when we visited you last winter for the purpose of having your candid opinion in her case, she was given up to die by all our ablest physicians within seventy-five miles of our country village. Indeed, neither my wife nor myself had any hope of her recovery, as her constitution had sunk so low from the fearful ravages of her loathsome disease, which you will remember was catarrh of the head. But as she had heard and read so much about your successful treatment in so many cases after all other possible means had failed, she expressed her desire to give your treatment a thorough trial before she could think of giving up to fill an untimely grave. Although I had no hope myself, but as a natural consequence of a parent's sympathy for their only daughter, we readily complied with her wish, and with what results and our sense of gratitude to you I have already expressed. She began to improve immediately after commencing your treatment. The discharge from the head and the offensiveness of its nature were not only trying and almost unbearable by herself, but of great annoyance even to her most intimate friends. Her lungs were so much diseased as the sequence of this Catarrhal affection, that all who knew her thought that any relief, much less a cure, was impossible. She has quite recovered and is still gaining in weight until she no more presents that unsightly state of emaciation. We certainly feel grateful to you, as the instrumentality of saving one's life whose value no one knows except a fond parent, and we bid you God's speed in your works of mercy.

Yours, respectfully, T. D. COFF,

SPEEDY CURES.

From Esquire A. B. Stevenson, Magistrate at Birmingham.

TO THE PUBLIC.—I certify that I had been severely afflicted for years with Catarrh of the Head, Bronchitis, Heaviness in the Chest, and Impaired Hearing. In this deplorable state I was providentially induced to apply to Dr. Aborn, at 134 Smithfield street. In ten days after commencing his treatment, I am most happy to acknowledge that I have almost entirely recovered from what I had so long suffered. My hearing also is almost entirely restored to its original acuteness, as the fruit of his skillful and scientific treatment.

July 8, 1867. A. B. STEVENSON.

Exposition Universelle.

This week's *Independent* says:

That modern wonder, the Atlantic Cable, seldom flashes messages between the two hemispheres fraught with more pleasing as well as important intelligence than the announcement which it bore on Thursday last, that a magnificent tribute of merit had been awarded to one of the most enterprising firms, the Wheeler & Wilson Manufacturing Company. The following is a copy of the telegram as transmitted by their representative in Paris: Paris, June 27th, 1867.—Exposition Universelle. Wheeler & Wilson, of New York, are awarded the *highest* premium—a gold medal—for perfection of sewing machines. This is the ONLY GOLD medal awarded for sewing machines. There were eighty-two competitors." That which has long been claimed by the Wheeler & Wilson Company, and those who are acquainted with the superior qualities of these sewing machines have never hesitated to acknowledge as a rightful claim, must now be universally conceded, namely, that the Wheeler & Wilson sewing machines are par excellence the most desirable. To the perfectors of these machines their reward is in truth well deserved. It is a compliment to American mechanical ingenuity; and the American people, who are included in the compliment, will of course feel proud of their successful countrymen.

Dr. Keyser's Great Blood Searcher.

The wonderful cures made in Pittsburgh and elsewhere, by this most extraordinary medicine, is beginning to be generally appreciated throughout the community. DR. KEYSER'S BLOOD SEARCHER has worked its way into public esteem, by some of the most extraordinary cures we have ever been called upon to chronicle—cures that have been solely made in bringing the system from a dejected, despondent condition, when all the powers of Nature seemed to flag and refuse their functions—where the blood loitered in the veins, and where the symptoms of consumption manifested themselves throughout the whole body—where decayed bones, rotten ulcers, long standing tetters, gave evidence that the whole system was falling to decay; and in an hour when these diseases seemed incurable, DR. KEYSER'S BLOOD SEARCHER, coincident with that critical and formidable exigency, was brought to bear in relumining the lamp of life, and giving an impetus to throw off disease, and restore the long lost vital energies to health and vigor. Dr. Keyser's Blood Searcher will invariably restore tone and vigor to the stomach. It will cure costiveness. It will enrich the blood with new plasma, and drive it onward in its mission of renewal to the overtasked and overworked organs of the body, with a certainty and power not belonging to any other medicine. Unlike most bitters and stimulants, that after their force is spent, leave the system weak and prostrated, it invigorates without an after-prostration, and whilst it cannot make health without food, it will enable the stomach to make use of that food and convert it into healthy and useful blood material, fit to be absorbed into the circulation for the uses of life.

Ask for Dr. Keyser's Blood Searcher and reject all others. $1 per bottle. Six for $5, at the great medicine store, 140 Wood street. Medical consultation rooms 120 Penn street. Office hours from 9 A. M. to 4 P. M.

New Goods at Bargains.

Yesterday while in Allegheny we called at the first class dry goods store of Messrs. Erwin, McConnell & Co., No. 173 Federal street, and had the pleasure of looking through a large invoice of new goods just received from the leading importers and manufacturers of the East. The stock is unusually large and attractive, having been selected with great good care and judgment, with a view to supplying the trade of this neighborhood. It embraces all the latest styles and novelties of a superior quality of dress and piece goods, and the prices have been placed at the lowest marginal figures. Very good Merrimack prints, yard wide sheeting muslins, heavy domestic ginghams, and plaid dress goods are offered at the extremely low price of twelve and half cents per yard, while the same degree of cheapness prevails throughout the entire stock. The attention of country dealers and all others who buy to sell again are especially directed to the inducements offered for their patronage by this enterprising firm of our sister city. Retail purchasers in this neighborhood need hardly be reminded of the bargains and selections offered, as all of our shippers are acquainted with the system of low profits and good goods which has rendered this house so popular. A large force of attentive and obliging salesmen will be found in waiting at all times to show goods and tell prices to all who may call. See the special advertisement in to-day's paper.

The Cross of the Legion of Honor—Its Value.

The following in regard to the value of the Cross of the Legion of Honor, conferred on Mr. Chickering, at the Paris Exposition, by the Emperor Napoleon, for the best Grand, Square and Upright Pianos, and for perfection of tone and construction, and skill and genius in invention, is from the Chicago *Republican*, of Wednesday last:

The following letter, kindly furnished by our distinguished fellow-citizen, Mr. Edwin Carey, Vice Consul de France, will explain the Cross of the Legion of Honor, and the high compliment conferred on its recipient:

CHICAGO, July 9.—*Gentlemen*—At your request I am happy to state that the decoration of the Legion of Honor does not consist simply of a ribbon, but a cross, and though conferred by the Emperor, is always at the *request of some of the departments.* I will add that the decoration is the HIGHEST honor which the Government reserves for those who have distinguished themselves, either in civil or military life.

Yours, truly, EDMUND CAREY,
Vice Consulate de France in Chicago.

The above is sufficient to inform the most skeptical of the great honor conferred on Messrs. Chickering by the decoration of the cross of the Legion of Honor.

A Lesson from New York.

The last report from the Metropolitan Health Office, New York, by Dr. Harris, calls pointed attention to the fact that the increased mortality of last week "was experienced *only* in those districts that are either overcrowded, or *unclean* and *badly drained*." From the City of Brooklyn "the same lessons and warnings" come; and the Registrar adds that they should not be disregarded. "Cleanliness" and "sanitary purification throughout these cities," he adds, "can forestall evils greater than all the arts of the physician can cure." All this applies to Pittsburgh just as emphatically as it does to New York, and our readers should at once see to it that drains are properly kept in order and new ones laid where needed. T. T. Evens, the well-known practical plumber, No. 165 Wood street, attends to all such work in the best mechanical manner. For cleanliness every well regulated boarding house should contain one or more baths, and so should private dwellings, and Mr. Ewens likewise pays particular attention to the putting up of all the modern styles of tubs, either in the city or country. Favor him with a call.

The Continental Saloon.

Among the many well conducted first class restaurants and eating saloons in the city none stand higher in the estimation of the public than the "Continental," situated next door to the Postoffice, on Fifth street. It has for a long time past been under the management of Mr. Wm. Holtzheimer, the worthiest and most skilled of proprietors, and has ever merited and received a large share of public patronage. The saloon is well arranged for the business to which it is adapted, being large, airy and neatly fitted. The furniture is of first class style, while the utmost cleanliness prevails. All the cooking is done in the rear of the saloon—a great convenience in this warm weather which other places for dining might profitably adopt. The tables are kept constantly supplied with the choicest of viands and delicacies which the markets afford, served up in the very best style of the culinary art. The bar is liberally supplied with ales, wines and beers, no stronger beverages being sold. To those desirous of procuring a first class meal we can safely recommend Mr. Holtzheimer's saloon.

Committed.

Charles Gibson, the young man who some time since was arrested and confined in the Allegheny lock-up, charged with having burglariously entered the jewelry store of Sawyer & Co., Federal street, Allegheny City, and from where he escaped the next day after he was confined, was subsequently arrested by Robert Graham and confined in the lockup in this city about ten days since, had a hearing, yesterday, before Mayor Morrison, and was committed. He was also charged with having entered the tobacco store of C. C. Bears, Wood street, and after a hearing before Mayor McCarthy in default of five hundred dollars bail was committed to jail to answer at Court.

Change of Agency.

NEW YORK, July 6, 1867.—We hereby notify the public of Pittsburgh and vicinity, that we have transferred the agency for the sale of our Pianos from Messrs. Hoffman, Hoene & Co., to Mr. C. C. Mellor, No. 81 Wood street. Mr. Mellor will furnish our pianos at the same price they are sold at our warehouse. DECKER & BROS.

From the above the public will know that hereafter the Decker & Bro's., pianos are only to be found at C. C. Mellor's warerooms. Persons desiring to purchase a first class Piano should not fail to examine the Deckers.

Maguire's "Japanese" Troupe.—The celebrated troupe of Japanese jugglers will give the first of a series of entertainments at the Opera House, on Monday night. The astonishing feats performed by this troupe are past all description, and they are creating a perfect furore of excitement throughout the country. Their stay in the city will be brief, and doubtless the house will be crowded at every entertainment, as every body has a desire to witness their marvellous performances.

Fire.—The alarm of fire yesterday evening was caused by a slight fire in the Pacific Oil Works, in Pitt township, Messrs. Brewer, Bicker & Co., proprietors. The fire originated in a small quantity of benzine, which by some means came in contact with the condensing tubes. Through the prompt action of the employes of the establishment, the fire was extinguished before it had done any damage.

At Pittock's, Steroscopic Views constantly on hand, embracing the objects of interest in nearly all the European countries and cities. Also, the United States, Canadas, South America, and the West Indias. The new lines of the various American and European Stereoscopic Artists received as fast as produced, at Pittock's, O. P. P. O.

Stole a Revolver.—Yesterday some visitor at the office of the jail stole a very valuable revolver out of the desk belonging to Warden White. The party who took it is strongly suspicioned, and to avoid exposure he had better return it at once. Perhaps the taking was a "practical joke" not much to be appreciated.

The Neptune Hose Carriage in going to the fire yesterday broke the hind axle, while crossing Liberty street near the Grain Elevator. No further injury was done to the carriage, and the axle, we understand, will be repaired immediately. The Neptune boys do not go out of service for trifles.

UNION REPUBLICAN NOMINATION.

FOR JUDGE OF SUPREME COURT:

HON. HENRY W. WILLIAMS,

Of Allegheny County.

RECONSTRUCTION.

The bill reported by the Reconstruction Committee of the House, to supplement the Military Government Act, seems to be well adapted to counteract the mischievous enterprise of the President, and to enforce obedience to Congress as the law-making power of the nation. Whether it will practically meet the requirements of the case, can only be told by putting it into operation. The Executive Department has adopted the plan of not finding the meaning of a law in the words employed to set it forth, but in certain theories of the interpetation which it has been pleased to invent. It is easy to see that under this method a coach and four horses can be driven through any statute human wisdom can frame, and on any subject whatever.

As we look at this supplemental bill, it imposes no new hardship on the Southern people. It simply provides for carrying the former laws into effect. If those laws shall be obeyed, by the President and the Southern people, there is nothing in this bill to make any body's case the worse. The blow it aims, is not so much at the inhabitants of the South, as at the President. The manifest intention is not to increase the difficulties that beset the work of Reconstruction, but to vindicate the authority of the Legislative department from encroachments by the Executive department. The President insists that Rebellion is so harmless an employment as to work no forfeiture of the political rights of States. He maintains that one or more States may resist the general government, by force of arms, as long as they will, and that the moment they are whipped and their weapons are wrenched from their hands, they revert, by a species of gravitation, to their old condition, and may march back unhindered to the halls of Congress and challenge equal consideration and respect. Congress, backed by the loyal men of the nation, fails to see that there is sense or reason in this position; that it does anything but invite to fresh attempts upon the life of the nation, and that a settlement on such a basis can produce anything but fresh disasters.

AFFAIRS IN THE SOUTH.

It was our fortune a day or two ago to meet an old friend, who has been spending the last twelve months at the South, visiting extensively several of the States lately in revolt. This gentleman, following the traditions of his family, is a democrat, and was recently the democratic candidate for Governor in the State in which he then resided. In his adhesion to his party he never had hesitated. Consequently, when he set out upon his late explorations, he was bitterly opposed to what he esteemed the radical measures of Reconstruction generally espoused by the Republicans. His trip cured him. In the course of conversation he developed some points of special interest.

1. That the Southern people, almost without exception, are in favor of accepting the best terms they can get from the general government. Not that their sentiments have in anywise undergone a change, but because they feel they are at the disposal of a power superior to any they can bring to bear against it. Besides, they are convinced that business prosperity, as the case stands, must depend, in a large degree, upon terminating, as soon as possible, the present contingent and provisional attitude of political affairs. That whatever resistance to the measures of Congress is apparent comes from a few restless agitators, and not from the bulk of the inhabitants.

2. That a feeling of intense hostility and bitterness towards the northern people pervades the whole South. He scarcely encountered an individual exception. This feeling is so intense as invariably to be carried to the pitch of personal incivility. Few or no courtesies are exchanged between southerners and northern people, the former repelling by studied coldness all advances. That this hatred is not confined to Republicans, but is manifested quite as strongly towards Democrats. Indeed, both are included and condemned under the broad cognomen of Yankee, which is used to signify all that is detestible.

3. He stated his personal experience, which was highly suggestive, considering that he is a gentleman of polished manners, of affable disposition, and complete self control; and he narrated passages from the experience of others. Among the latter he cited the case of a brother democrat who was so offensively southern during the war that he was sent South by order of government. This man's immoderate secession did not save him from obloquy. He fell under the deep reproach of being a Yankee, that is, a northerner, and was cut so often and cruelly that a complete revulsion came over his sentiments, insomuch that he was ready to sustain negro suffrage as the only scheme that promised to curb the turbulent southern elements.

—It so chanced that the same day we had a conversation with a lady friend who spent many years at the South, before the war, in connection with a Female Seminary of high repute. Upon the collapse of the rebellion her father, whose loyalty had never been shaken, was appointed to a civil position of consequence. From that moment all the former acquaintances and neighbors of the family withdrew all social recognitions, and this ostracism still remains in full force; is, indeed, rather intensified from month to month. The offence of this family consists solely in northern birth and in unobtrusive but decided loyalty to the government.

POLITICAL OFFENCES.

The Governments of Europe are all deeply agitated by the execution of Maximilian. Whatever occasion or pretext for animosity they may have towards each other, in this matter they have a common interest which constrains them to act in concert. It is likely all diplomatic and consular intercourse will be suspended by these Governments with Mexico. What offends them is not that an intruder has been brought to grief. That they are all accustomed to endure. It is their habit to lay a heavy hand on all who rise up against them in a manner so formidable as seriously to threaten their security and repose. What provokes their ire is that a royal prince, descended from an illustrious line, has been treated with the same severity the Mexicans exercise towards men having no such advantages. To a certain extent the European populations will go with their rulers in this particular. While the sentiment of loyalty to certain men or families has been shaken, and is no longer what it was, much of it remains, and to a degree almost inconceivable on this side of the Atlantic.

Whether the exclusion of Mexico from formal intercourse with European Governments will be productive of serious inconvenience to the inhabitants of that country, admits at least of debate. For many years Mexico has been so constantly disturbed by political commotions as to paralyze industry and destroy commerce. She was long ago reduced to the necessity of depending mainly upon herself, a condition which her admirable climate rendered comparatively easy.

When MAXIMILIAN went into Mexico, he signalized his advent by the most ferocious measures of repression. All who resisted his reign were delivered over to death. The severities he practiced are used to justify the barbarities to which he and his supporters are in turn subjected. Measuring by this rule, no man can rebuke the condemnation and punishment of MAXIMILIAN. He is reaping as he sowed, and, so far, his family and the European monarchies have no valid reason to complain. But, it is manifest that in putting him and his principal adherents to death, the Mexicans have prepared the way and furnished beforehand excuses for another series of bloody revenges when the fortune of war shall change; and it shifts oftener in Mexico than in any other country in Christendom. The Church and monarchical factions in Mexico are not dead. They are not likely to die for many years, if ever. The embody elements of almost perrenial vigor. Though now overpowered, it is not safe to predict they will not have a resurrection inside of twelve months. Once restored to power, it is obvious what reprisals they will take.

Was ever a great national controversy settled, so as to remain in repose, by the slaughter of leaders? If one has been so adjusted we fail to recall it. Many have been arranged by magnanimity; by calling into being new sympathies and common interests. Mexico is slow in learning this lesson.

RELIGIOUS INTELLIGENCE.

The Sabbath Question is now, and has been for some time, agitating the religious portion of Cincinnati. The Evangelical Ministerial Association of that city some time since, called the attention of Mayor Wilstach to the non-observance of the Sabbath, and suggested the proper course to be pursued by the municipal authorities. The Mayor in his reply took grounds in favor of making the Sabbath largely a day of recreation. The Association replied to the Mayor, calling his attention to his having sworn, on assuming the Mayoralty, to execute the laws, which is all they ask of him and can reasonably expect. They complain that he gives an interpretation to the laws never intended by the framers. The Association has also adopted and published an address to the public on the observance of the Sabbath. In connection with the controversy between the Mayor and this body of ministers, some of the clergymen are expressing their views on the subject. A nondescript clergyman recently took the view that the Christian Sabbath was a misnomer and a historical fraud; there was no Sabbath but the Jewish Sabbath, and that had long ago been abolished; the sanctifying of the first day of the week rested on no divine command; it was a human institution which stood in the way of human progress, and ought to be abolished. This argument is met by a religious paper in that city, after discussing the question, thus: "Our position is, then, that we are under the original law of the Sabbath, as a day made for *man*. We are not under the ceremonial law of Moses, and the burdensome details of obligation which it prescribes do not apply to this. But the command to rest from labor, and to hallow the Lord's Day, is as broad as humanity, and cannot be evaded except at the peril of our souls."

A correspondent of the Northwestern *Christian Advocate* writes to the editor to know if he can't say something to quiet the consciences of hop-grower's, as there are some persons he knows, a local preacher, two class leaders, deacons in the Presbyterian Church, several Good Templars, and many others claiming to be Christians and temperance men, who are raising hops, because they say there is *money* in them. He thinks that if it is right to raise hops, it is right to make ale and beer. There is *point* in his answer to the inquiry, if hops are largely used for "coloring and tanning," that hops are good for coloring *faces* and tanning *stomachs*.

The late convention of *the* Methodist Church, better known as the Methodist Protestant Church, held at Cleveland, Ohio, made some important changes. Ministers and preachers, in circuits and stations, may now be stationed for a term of four years. Leaders meetings abolished, and in lieu thereof a monthly meeting is held, composed of all members of the Church, together with the pastors, to consider the interests of the charge. The President of a conference, instead of being required to travel at large through his District, can be relieved from this duty by the Annual Conference.

The Chicago correspondent of the *Examiner and Chronicle* writes that the elegant carpet, now no more so of the First Church, denominated we believe, the Baptist Cathedral, was completely saturated by the Baptist animals (his exact words) with tobacco spit. Other severe remarks are made in regard to the damage done by the visitors at the late grand gathering of Baptists in that city.

The First English Lutheran Church of Pittsburgh, says the *Lutheran Observer*, loyal to the General Synod, have tendered a unanimous call to the Rev. J. H. W. Stuckenberg, of Indianapolis, Ind., with a salary of $2,000 per annum.

Spurgeon, the great English Baptist preacher, is said to be so affected with the *gout* as to be compelled to stand on one leg during the delivery of his sermons.

The First Church in Oberlin, under the lead of the venerable President Finney, has established a system of evening class meetings. The church is divided into districts and a leader appointed for each. The leader reports attendance, &c., each week to the pastor. This smacks of Methodist usages in regard to weekly class meetings.

The Chicago Theological Seminary is promised fifty thousand dollars provided one hundred thousand more were contributed. Three persons have since given twenty thousand apiece, so that the project is likely to succeed.

An inquiry appears in the *Christian Instructor* (United Presbyterian) of Philadelphia, from a layman, asking in case he lives so far from the church of his choice that it is impossible to attend, whether he is justifiable in attending another church more convenient; either spend his Sabbaths at home or attend a Methodist church and Sabbath School. The editor replies to the query at some length, in which he argues that if he cannot enjoy the ministration of his own church, rather than be deprived of the services of the house of God, he should by all means attend a place of worship that is accessible. He thinks, too, in no sense will consistency or duty justify his endeavoring to be a member of the United Presbyterian Church, and a stated attendant upon another, as a conscientious and true man cannot justify the practical union which he would thus be forming between the two, namely: belonging to one church and attending upon the services of another, whose doctrines and usages are entirely different. In the one he has professed and engaged to hold fast what is denied the other. In the one he practices what is ignored or forbidden in the other. Let him go to another, *if he must*; but if he goes, let him give up his former one.

Since the rebellion quite a number of colored persons from Winchester, Va., and other points contiguous, trained in the Presbyterian Church, have settled in and around this city. With a view to organize them into a society and aid them to obtain a place of stated worship, Revs. E. F. Swift, James Allison, Thomas X. Orr, and others, Committee of Presbytery, have been appointed to make all the arrangements necessary for the purpose. We understand the movement promises to be a success, and that a suitable place has been secured to have regular services every Sabbath.

—Canada is now a Dominion. That is a new term, and needs some definition. It may mean one thing, or it may mean another, and in Canada it certainly signifies a curious anomaly. The Dominion is composed of the two Canadas, Nova Scotia and New Brunswick. Neither of the two latter provinces desired the union to be consummated, but were induced to consent by promises of subsidies and royal patronage. They are now under the rule of a Governor General, Lord Monck, appointed by the Crown, who has appointed a Lieutenant Governor General, for a term of five years, to preside over each of the four provinces. Thus far the Government resembles a viceroyalty. In the composition of the Parliament, or Congress, we see a combination of aristocratic and republican systems. The Upper House is called the Senate, and is composed of seventy-eight members, six of whom are appointed by the Governor General, and the remainder by the Government. These hold their position for life. Then there is the Lower House, called the House of Commons, consisting of one hundred and eighty-two members, who are chosen by popular election, under a sort of household franchise system, which is nearly universal suffrage. This constitutes the General Government of the Dominion. Besides this each province has its own Legislature. Ontario, or Upper Canada, has but one House, while the bicameral system prevails in the others. In the matter of constitutions, each province has its own peculiar law; and, indeed, none have much in common except the provision that authorizes the Cabinet, with the consent of the Crown, to provide them each with a Lieutenant Governor General. Such is the machinery of the Dominion, which began its existence on Monday. It is an experiment which has a very temporary appearance.

—Dr. Joseph H. Walter, the physician at Brooklyn, New York, who was convicted in 1865 and sentenced to ten years in the State Prison, for committing a rape on Lucy S. Jones, of West Springfield, who was visiting a brother in Brooklyn, has been released from prison and allowed to go at large, by a recent decision of the Supreme Court, to which the case was appealed. Walter took advantage of his professional intercourse with Miss Jones to effect her ruin, but the Court rules that force was necessary to constitute rape, and that fraud does not amount to rape in the meaning of the law. The victim died soon after the trial.

—A suit was recently commenced in San Francisco of a novel character. The plaintiff claimed that the defendant entered his dwelling and "with great force and violence seized said house in which this plaintiff, with his family, resided, and in which his goods and chattels then were as aforesaid, and with great force and violence lifted said house from the ground on which it then and there stood," and carried it with its contents to another street. The plaintiff wants $5,000 damages for this violent proceeding.

MR. W. MILLER SAYS:

PITTSBURGH, September 4, 1866.

Messrs. Hostetter & Smith, Pittsburgh, Pa.

GENTS—I think I am only doing the part of a good citizen when I testify to the great benefits received by me from the use of your Stomach Bitters during the last five years. Sojourning for a time in the oil regions, in 1861, I had a severe bilious attack, which, in connection with dyspepsia, left me in a very weak condition. I was advised to try your Bitters, and, having procured a bottle, found that they worked like a charm upon me, eight pounds having been added to my weight in the space of one week, and new life seemed to have been infused into my system, so much so that I have been induced to use them every summer since that time. As a tonic, I think they are invaluable.

This summer, having had a similar attack, (and as before, much reduced,) although under the treatment of an A No. 1 physician, I was again obliged to have recourse to the old Bitters, and with the same good result, having gained six pounds within a few days. I purchased a half dozen bottles a few weeks since, and purpose to use them regularly as a tonic.

Wishing you every success, I remain,

Yours, gratefully,

WILLIAM MILLER.

PINUS CANADENSIS.

A tree which is abundant in Canada, Nova Scotia, and the more northern parts of the New England States, and is also found in the elevated and mountainous regions of the Middle States, and abounds in medicinal virtues. Dr. Ewett, of Boston, has prepared a medicine from the sweet inside bark of the pine tree, called POLAND'S WHITE PINE COMPOUND, which is one of rare value in all debilitated states of the kidneys. It acts like a charm in all diseases of mucous membranes, enabling them to regain their lost tone and energy. It will be found well adapted to all those diseases, where Buchu has been tried and failed. It is likewise well suited to chronic coughs, and an infallible specific for old and debilitated cases of asthma. Many persons who at first only took a bottle of this medicine, to try, afterwards came back and got a dozen, or half dozen, which effected radical cures of diseases of the bladder and kidney of years standing.

Diabetes, a disease that has been looked upon as among the incurables, is immediately relieved by it. Notice the certificate of Asa Goodnue, published some time ago.

The *United States Dispensatory*, speaking of the pine, says: "It is prescribed in leucorrhœa, gleet, and other diseases of the urinary passages; in piles and chronic inflammation or ulceration of the bowels, in chronic catarrhal affections, and in various forms of rheumatism." It is exceedingly valuable in all gravelly affections, bloody urine, and where there is red and white sediment. It can be taken without interruption to one's usual avocations; and instead of sickening, produces a bracing, healthy power of endurance and vigor. Price, 50c per bottle; six for $5. Ask for POLAND'S WHITE PINE COMPOUND. For sale by the gross, dozen or single bottle, at DR. KEYSER'S Great Medicine Store, 140 Wood street. ap20

THE MEMBERSHIP AND CONGREGATION OF BROWN'S A. M. E. CHAPEL, through its Trustees and Pastor, Rev. J. W. DEVINE, appeal to all classes of Christians, in the name of our sovereign Ruler, the God and Father of all, for help, to enable them to complete their church, now in course of erection, on the corner of Hemlock and Boyle streets, Allegheny. Favored by the kindness of a few white friends, and the untiring efforts of the membership, our little church has been trying to erect another temple to the honor of the Living God, ever since our building on East Commons was destroyed by the guilty hand of an incendiary.

We wish and pray for the success of all Christians, whether Presbyterians, Baptists, Episcopalians, or others. There are enough colored people in the two cities and its environs to fill churches specially devoted to the evangelical teachings of these denominations. Church Power is not alone our aim. We wish to build a church wherein we can worship God according to our consciences, and the light which He has given us.

Prof. S. A. NEALE, who is not of our faith, but is, nevertheless, an earnest worker in the Spiritual Kingdom of the Master, will act as our Agent for a brief while, and we have invested him with letters which empower him to solicit subscriptions from all well-wishers.

We also respectfully announce that a Grand Celebration of the victories of Freedom in this county, will come off at UNION PARK, in the Western part of Allegheny, AUGUST 1st, 1867. All the Colored Military and Civic Societies will participate, and a Grand Tournament will be one of the features of the occasion. All the profits will be devoted to the payment of our church debt.

NEW ADVERTISEMENTS.

THE UNION PACIFIC RAILROAD CO.

Are now constructing a Railroad from OMAHA, NEBRASKA, westward towards the Pacific Ocean, making, with its connections, an unbroken line

ACROSS THE CONTINENT.

The Company now offer a limited amount of their

FIRST MORTGAGE BONDS,

Having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of

SIX PER CENT. IN GOLD,

At Ninety Cents on the Dollar.

This road was completed from Omaha 305 miles west on the 1st of January, 1867, and is fully equipped, and trains are regularly running over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 212 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its Six per cent. Thirty-year Bonds to the Company as the road is finished at the average rate of about $28,250 per mile, amounting to $44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which BY SPECIAL ACT OF CONGRESS ARE MADE A FIRST MORTGAGE ON THE ENTIRE LINE, the bonds of the United States being *subordinate to them*.

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,416,000; but the full value of the lands cannot now be realized.

The authorized Capital Stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished, for the month of May, were $251,752. These sectional earnings, as the road progresses, will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended; on 300 miles of this road the cars are now running, and the remaining 187 miles are nearly completed.

At the present rate of premium on gold these bonds pay an annual interest on the present cost of

Nine Per Cent.,

And it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Youngstown, Ohio, June 17th, 1867.

Messrs. Burke & Barnes, Pittsburgh, Pa.

GENTLEMEN—We ship you, to-day, by railroad, a safe of your make, for a few repairs. The safe went through the disastrous fire that occurred here on the 6th of March last, burning our store and warehouse, and we are glad to inform you that the papers taken out of the safe after the fire were not harmed in the least. We did not suppose any safe, especially so small a size, could possibly stand such a fire, and when we discovered the papers all safe and sound, we were agreeably disappointed. We will give you an order for a large size safe when we get into our new store. Truly yours,

AUCTION SALES.

172 ACRES—CHARTIERS VALLEY FARM, with rich coal vein.—On TUESDAY EVENING, July 16th, at 8 o'clock, will be sold, on second floor of Commercial Sales Rooms, 106 Smithfield street, the well known valuable farm of the late Dr. Robert Thompson, situate in South Fayette township, at the junction of the Hickory road with Washington turnpike, immediately on the line of the Chartiers Valley railroad, and adjoining the village of Bridgeville, situated in the beautiful Chartiers valley, only nine miles drive from the city, or about one mile beyond the well known Garret Tavern, or Woodville Inn, on Washington pike; it contains 171 acres and 148 perches, of the richest land in Allegheny county, all of which, except fifty acres fine timber land, are under good cultivation. This farm is not surpassed by any other in the State, and is celebrated for its wheat crops. It is underlaid with 131 Acres of Coal of the rich Pittsburgh vein, with such extra facility for working as gives it the key to this entire coal region. There are several springs of excellent water, and the whole farm is well enclosed with good fences.

The improvements are a two-story frame dwelling, in good order, and an excellent barn. Plan of the property can be seen at the Auction Rooms. Those wishing to view the premises can call on H. H. B. THOMPSON, at Bridgeville.

Terms of sale—one-third cash, balance in one and two years, with interest.

COUNTRY HOMES AT AUCTION.—The subscriber will offer at Public Sale, on the premises, in Robinson township, on THURSDAY, July 11th, 1867, commencing at 2 o'clock p. m., a splendid variety of BUILDING LOTS, desirable for country homes or for gardening purposes, the whole consisting of thirty acres, divided into eighteen lots, ranging from one to three acres each. These lots are situated on Chartiers creek, two-and-one-half miles from the city, in a fertile and salubrious valley, and but a short distance from the romantic spot known as McKee's Rocks. They are accessible from the city by the Woods' Run Passenger Railway and Ferry to McKee's Rocks, and by the Pittsburgh & Steubenville Railroad, as well as by the Chartiers & Robinson Township Turnpike.

The position is one of the most healthful and beautiful in the country, and being but a short distance from the city, the opportunity thus offered for obtaining a country home or garden spot is a very rare one.

Any person wishing to see the property before the sale, can do so by calling on the subscriber, near the premises, in Chartiers township.

TERMS—One-third cash at time of sale; balance in one and two years, with interest from date of sale. JAS. McGUNNEGLE.

HUGH McKELVY, P. M.

Consolidation of Pittsburgh.

In speaking of consolidation, a subject which is now of much interest to our readers in this neighborhood, the Philadelphia *North American* says:

There seems at length to be a very fair prospect for the consolidation of Pittsburgh and its environs into one municipal corporation under the act of Assembly passed last winter. The question has been fully and sensibly discussed until public sentiment appears to have become well settled in its favor. We need not say how much pleased we are at this prospect, as our readers have frequently been informed of our views on the subject. In its new proportions the reconstructed city will be six miles in length by four in width, divided into three sections by the Ohio, Allegheny and Monongahela rivers.

Of these the original city of Pittsburgh, located on the tongue of land formed by the junction of the Allegheny and Monongahela rivers, is properly not more than one third of the real city. Across the Allegheny river, and connected with it by bridges and railways, are the city of Allegheny and the boroughs of Manchester and Duquesne, while across the Monongahela river lie the boroughs of Birmingham, East Birmingham, South Pittsburgh and West Pittsburgh.

All these legitimately constitute the real city of Pittsburgh, but in all national and other official papers the city is set down only at the figures of the old city, so that instead of taking rank where it belongs, with Chicago, Cincinnati, St. Louis and Boston, this large and important centre of trade and population is held up before the world as belonging to the class below. No matter how often the mistake may be corrected in print, there are so many rival interests to be aided by misrepresenting its position and progress, that most people are still accustomed to hold Pittsburgh to the same ranks as Providence, Louisville, Nashville, etc.

Philadelphia suffered in like manner down to her consolidation, in the year 1854, and when at length her huge proportions loomed up before the world, men could scarcely credit the fact, so long had they become accustomed to the delusion that the city had sunk in decay through the changing currents of trade. Boston has lately begun to arrive at a similar conclusion in regard to her own proportions, and is endeavoring to consolidate some of her suburbs with the city. The example of Philadelphia was also imitated by Brooklyn, which city swallowed up Williamsburg and all the outlying villages. The difficulties encountered in consolidating Pittsburgh, though deemed peculiar by the Pittsburghers themselves, were very similar to our own—the existing corporation debts, local interests, and the opposition of office-holders.

There can be no doubt that, aside from the injury done to the importance of the city by keeping it in its present divided state, the municipal government suffers very much from the jarring arrangements of these many corporations, with their separate codes of administration, and that the community stands very much in need of a powerful consolidated municipal government to undertake public works with adequate resources and public spirit, and to give confidence to capitalists and builders in undertaking the improvement of out lying districts on a large scale. This was rendered so manifest in the case of Philadelphia, that the work of improvement received a great impetus in many districts which previously no capitalists would touch.

Bail Fixed.—In the case of Michael Leonard, charged with feloniously shooting Patrick Graham, in West Pittsburgh, a short time since, W. C. Moreland, Esq., yesterday made application for the release of the accused on bail, asking the Court to fix the amount. Judge Mellon, after hearing the statement of Graham, as to the nature of the occurrence, fixed the bail at $3,000.

Fashions for August.—Demorest's Ladies' Magazine, together with all the late papers, will be found at Messrs. Hogle & Chambers, 74 Fifth street.

ASSAULT AND BATTERY CASES.

James Sullivan made information before Alderman Morrow, against his wife, Ellen Sullivan, charging her with aggravated assault and battery. The parties reside near Eliza Furnace, at Soho. He alleges that the defendant struck him over the head with a chair, knocking him down, on Monday, and he bears evidence of having received a severe blow from something harder than the fist, in the shape of a black eye and a severe cut over the right eye. A warrant was issued.

Margaret Fitzsimons made information before Alderman Taylor, against Ellen Cowley, charging her with assault and battery. She alleges that the defendant attacked her and shoved her about in a rude manner, and drew her fist and threatened to strike her. A warrant was issued, the defendant arrested and held for a hearing on Saturday at three o'clock, P. M.

Feronika Benoit made information before Alderman Thomas, against her husband, Albert Benoit, charging him with assault and battery. The prosecutrix alleges that her husband, on the 17th of June, committed an assault upon her by beating her in bed and turning her out of doors at 12 o'clock at night five days after her confinement. She farther alleges that the husband is about to depart for Germany and leave her without any support. After two hearings the case was postponed till Monday morning at eight o'clock.

J. P. Leonard made information before Alderman McMasters, against William McElroy, charging him with assault and battery. The facts as stated by the prosecutor are as follows: The prosecutor was at Oakland on the Fourth, and while there a difficulty occurred between some of his friends which resulted in a fight, and he attempted to separate the contesting parties, when some one in the rear threw a stone which struck him on the head, inflicting a terrible cut. He did not ascertain who threw the stone at the time, but yesterday learned that it was McElroy, consequently the information. The defendant was arrested and held for a hearing to-day, at 9 o'clock.

SURETY OF THE PEACE CASES.

Ned Lyons was charged before Justice Janey, of Lawrenceville, with Surety of the Peace, on oath of Harvey, who alleges that the defendant threatened to take his life. Lyons was arrested and committed to jail to answer at Court.

Robert Magmeler made information before Alderman Strain, against William Cullin, charging him with Surety of the Peace, alleging that the defendant threatened to kill him. The parties reside in Manchester. Cullin was arrested and held for a hearing.

SPECIAL NOTICES.

☞SECOND BANKERS' AND MERCHANTS' GRAND PRESENTATION ENTERTAINMENT, will most positively take place at IRVING HALL, on the evening of July 24th, 1867. The largest, greatest and most successful enterprise ever inaugurated in the world. A Present with every ticket.

The First Grand Concert was given on July 4th. It was a grand success. The mammoth Hall was filled with the elite of the city. The audience appointed a committee of nine of the leading Bankers and Merchants, to examine the corresponding numbers to the tickets and the Register Books, to see that all is correct before making the grand distribution of prizes at the last Concert, on the 24th of July.

A gift with every ticket. The Grand Distribution of presents will be conducted on the Mutual Benefit principle. A pro-rata Distribution of Profits to Ticket holders. Capital, $1,257,148. Tickets, $1 each. A present with every ticket.

A reference to the number of presents and the general plan of distribution, given below, will convince the most skeptical of the great advantages which will accrue to all who participate in the enterprise; and the commercial and financial standing of the company, and the managers and bankers thereof, will, they hope, prove a sufficient guarantee of the fairness and impartiality with which everything in connection with it will be conducted, and that the interests of ticket holders will be most scrupulously watched over and guarded. In fact it is the desire of the managers to conduct every transaction for the mutual benefit of whoever shall purchase a ticket, and scrupulously to avoid any and everything which could in the slightest degree diminish the profits which are likely to accrue to all who invest. FROM ST. LOUIS.

Suicide of a Book-Keeper—Indian Depredations—Railroad Accident.

[By Telegraph to the Pittsburgh Gazette.]

St. Louis, July 12.—Richard Dammert, book-keeper for Michaels, Krite & Co., committed suicide on Wednesday, in consequence of the discovery of serious embezzlements.

A large herd of cattle was driven away from Fort Laramie by the Indians on the 8th inst. On the same day Smith's ranche, twelve miles, and Dennis ranche, twenty-two miles from Julesburg, were attacked by the Indians and a lot of stock captured.

The passengers on the train that collided with the freight train near Gardiner, Illinois, last night, report three passenger coaches and the baggage and express car burned. The baggage master and one brakeman and one passenger are known to be killed. The body of the latter was badly burned, and several others, it is believed, have been killed, and quite a number more or less injured. A large number of cattle were on the freight train, and many of them were killed and wounded, and much other property destroyed.

Chesapeake and Ohio Railroad Convention in Virginia.

[By Telegraph to the Pittsburgh Gazette.]

Richmond, July 12.—The Convention which met at White Sulphur Springs to devise means for the construction of the Chesapeake and Ohio Railroad, adjourned yesterday after a two days' session. Ohio and Kentucky, seven counties of West Virginia, and nine counties of Virginia, were represented by two hundred delegates. Governor Pierpoint was President. Several capitalists were present from New York and Philadelphia. On taking the chair, Governor Pierpoint made a speech, predicting that if the building of the road was persevered in the Federal Government would aid it, and lay double tracks, to meet the demands of the west. A committee presented a series of resolutions (one declares five millions of dollars should be raised for the completion of the road). During the debate, Mr. Williams, of Green Briar county, donated five thousand acres of land for the building of the road, and another gentleman offered to become one of a hundred to subscribe five thousand dollars each.

A telegram to the *Dispatch* says the resolutions were adopted and the Convention adjourned *sine die*.

From the discolored waters, and birds seen it is believed that an island exists in the vicinity of the locality visited.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, July 12, 1867.

The New York stock quotations to-day, as received by Mr. P. R. Mertz, were as follows: Gold, 139¼; Eighty-one bonds, 119¾; Five Twenties, 1862, 111¼; Five Twenties, 1864 109¼; Five Twenties, 1865, 109⅝; ditto new, 108¼@108⅜; Seven Thirties, 108⅜; Ten Forties, 102⅛. Stocks—Erie Railroad, 71; Cleveland & Pittsburgh, 90¼; Chicago and Rock Island, 97¾; Chicago and Northwestern, 45; Chicago and Northwestern preferred 68¼; Fort Wayne Railroad, 101¾; Michigan Southern Railroad, 80¼; New York Central, 106¾; Reading, 104⅜; Western Union Telegraph, 48¾. Mining shares—Gregory, 6,85; Corydon, 1,95; Quartz Hill, 2.00.

The whole market is on a decline. Government securities opened weak at decline of about ¼ per cent., and after the one o'clock board there was a further decline of from ⅛ to ⅜ per cent. The large dealers in these securities have sold out their stock, and offer contracts for future delivery. Whilst the Government was forced to pay the top of the market for their Seventy-Thirty bonds, a large number of holders of Government securities are willing to sell whenever it is evident that there will be no further rise, and thus a large amount of bonds would come on the market should the decline continue for but two or three days. Railroad shares suffered a decline of from 2@3 per cent.; the decline is more marked in the fancy shares, and large blocks of stocks have been thrown on the market to realize. The present rise was too sudden to be permanently followed up, and too many are engaged in stock gambling whose means are very limited. Mining shares are lower except Quartz Hill. Money is getting easier.

Closing quotations received by James T. Brady:

U. S. Sixes, 1881	110¾
" 5-20s, 1862	111¼
" " 1864	109¼
" " 1865	109⅝
" " 1867	108⅞
" 10-40s	102⅛
" Consols	108
August 7-30s	108⅜
June 7-30s	108¼
July 7-30s	108
Dec. Compounds, 1864	117½
Gold	139
Silver	133

—As the close of the fiscal year took place June 30, we shall have no debt statement till about the first of August. The custom receipts of June were 13¼ millions; the internal revenue receipts 20¼ millions. These figures are larger than the May, but far less than those belonging to June, 1866. The aggregate receipts of the entire year are $265 803,194 88, against $305,864,182 18 in 1866—a decrease of forty millions. The Treasury balance will be heavily reduced in July. Nineteen millions of gold interest, and twenty-one millions of compound interest notes with accrued interest, mature in July.

—The Treasury Department has closed its investigation into the Bay-Whittaker Sub-Treasury defalcation in New Orleans, and indictments have been found against both of the accused parties, which will be tried at the coming session of the United States Court. The Government has thus far secured from the assets of the defaulters a sum amounting to about $600,000, or one half of the defalcation.

—The reported failure of the dry goods house of Wicks & Co., is much reduced in the amount of the liabilities, being now stated at about one million and three quarters, with assets to the amount of $1,403 711—the difference being reduced to about $370,000.

—The Scotia's mail brings advices of the amalgamation of the old and wealthy firm of Messrs. Finlay, Hodgson & Co., Merchant Bankers of London, with the eminent house of Baring Brothers & Co. The principal partners in the house as thus reorganized, are Mr. Thos. Baring, Mr. Kirkman D. Hodgson, Mr. Russell Sturgis and Mr. Stuart Hodgson, with six junior partners.

—A Washington dispatch states that on the 1st of July there were in the Treasury of the United States $146 000,000. We are curious to know why Secretary McCulloch continues to hoard such vast sums, instead of applying the money in payment of the interest bearing obligations of the Government. The application of one hundred millions of the idle money in the Treasury to the redemption of 7-30 bonds falling due would do vastly more towards strengthening the credit of the Government and appreciating the value of greenbacks and five-twenties, than keeping this money idle in the Treasury.—*Chicago Tribune.*

—The history of stocks cornered in Wall street is somewhat instructive—usually disastrous to the cornerer and to the cornered, and result to the companies themselves has often been just the reverse, as in the case of Harlem, Prairie du Chien and Cumberland. To the bonds of the latter Company $100 000 has just been subscribed by the wealthy firms who were saddled with this fancy last winter, and they expect by its use to develop the iron interest, and to make the stock pay as an investment at its cost to them.—*N. Y. Tribune.*

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, July 12, 1867.

CRUDE—The market for Crude was again firm and considerably excited to-day, and prices, if anything, are a fraction higher. As will be seen, the purchases are mainly for forward deliveries, though there is also considerable inquiry for spot oil, but the extreme views of holders has a tendency to retard operations. There is no spot oil here except what is in the hands of tank men, and they, as a general thing, do not seem disposed to sell, even at the advance. We have the following sales reported:

1300 bbls. first water at	9c
1000 do between now and November 1	9c
500 do do do do	9c
500 do spot, at works	9c
1000 do all 1867, buyer's option	10½c

REFINED—The market for bonded oil was active to-day, the sales, in the aggregate, being large, but owing to conflicting reports from the east, the views of dealers were rather mixed, some of them reporting a better market, while others thought it was worse than on Thursday. That the present excitement is mainly speculative is generally conceded, and while it is possible that there may be a temporary reaction, it is hardly likely that prices will go back to where they were previous to the present "flurry." We can report the following sales:

2000 bbls, 500 each from September to December, on cars at works	31c

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

New York, July 12.—The excitement relative to the rumors of failures are pretty well over, and most of the firms mentioned are safe. Two Foreign houses have failed to heavy amounts and one of them can only pay 8s 6d on the pound. There is no panic in the market, notwithstanding these failures, and there is some hardening tendency. All goods are firm though the demand is moderate.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, July 12, 1866.

The produce markets, apparently, were unusually dull to-day, the operations in all of the leading commodities being very light, while so far as prices are concerned, there are no changes worthy of special notice. The excitement which existed in Flour and Grain is again subsiding, and it would not be surprising if the recent advance was lost within the next few days.

GRAIN—Oats scarce and in demand; we now quote at 73@75c, on track, and 78@80 in store. Corn is in better demand but unchanged; sale of 3 cars at 90c. Rye is quiet but steady with a limited supply in this market; we continue to quote at $1,25. Nothing doing in Wheat or Barley.

FLOUR—Is steady but quiet and unchanged. We continue to quote at $11.50@12.50 for Spring Wheat; $13@14 for Winter Wheat; and $17@17,50 for fancy brands. Rye Flour is quoted at $8.25@8,50.

PROVISIONS—Bacon is firm, with a steady demand and regular jobbing sales at 10½c for Shoulders; 11¾@12c for Ribbed, and 12¾@13c for Clear Sides, and 20c for Sugar Cured Hams. Lard dull at 12½c. Mess Pork dull and nominal at $23,50.

POTATOES—In fair demand, but steadily declining. Sales of new at $4,50 per bbl, and old at $1 per bush.

GREEN APPLES—Dull and drooping, and we now quote at $5@6 per bbl—a decline of $3 per bbl within a very few days.

BUTTER—Is dull but unchanged. We continue to quote prime fresh at 16@18c, and common packed at 8@10c.

EGGS—Quiet but steady, with a supply about equal to the demand. Fresh packed may be quoted at 20c.

CHEESE—Is steady, with regular jobbing sales at 13@15c, according to quality. The supply is fully up to the demand, and the receipts continue liberal.

BUCKWHEAT—Is dull, the demand for Seeding having pretty well subsided. It may be quoted at $1,60@1,75 per bush.

SALT—The demand at this season of the year is always very light, and this year is no exception to the general rule. Prices are nominally unchanged.

PITTSBURGH METAL AND BLOOM MARKET—WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY July 12, 1867.

The market for Crude Irons has been fairly active during the past week, and while there is apparently a firmer feeling for good standard brands of forge irons, irregular and inferior grades continue very dull and neglected, and to effect sales, concessions have to be made. The stock of the former is pretty well reduced, while that of the latter is considerably in excess of the demand; and, as already intimated, desirable brands are in limited supply, and held firmly while the market is pretty well glutted with inferior grades, and it is difficult to sell this particular description at any price. There is considerable inquiry for small lots of desirable brands of Foundry Irons, and a considerable amount, in the aggregate, could be disposed of in a kind of a retail way; but there is little or none in market. We have the following sales reported:

RIVER NEWS.

The weather continues cloudy and unsettled with occasional light showers of rain. Business at the landing is entirely suspended, and there is but little prospect at present of any immediate improvement.

Capt. Wash Ebbert, of the Yorktown, was in the city yesterday. He has just returned from a four months voyage between St. Louis and Fort Benton. We are glad to state that he is in good health, and that his trip to the mountains was a success in every respect. The Yorktown is now laid up at St. Louis.

The sale of all the boats, wharfboats and boat stores of the Atlantic and Mississippi steamship Company is to be held at trustees' sale at the levee at St. Louis on Monday next, 15th inst. This sale is positive for cash, and the boats and other property will be delivered immediately. The boats consist of the Ruth, W. R. Arthur, Luminary, Moline Abe, Julia, Olive Branch, Mississippi, Pauline Carroll and Continental, nine in all, and all in first-class condition.

The Graham has arrived at St. Louis from Fort Benton. The distance is computed to be 2,325 miles, and the trip was made in five days and nine hours, being the fastest time ever made by any steamboat. The Graham is 248 feet in length, 38½ feet beam, and carries 1000 tons, and is the largest steamboat that ever made the trip.

The Nashville *Union and Dispatch* of Tuesday last says: Capt. Ben Good, of the steamer J. L. Graham, is in the city. He informs us that the Spray, from Cincinnati, loaded for this point, discharged her freight at Eddyville and returned to Cincinnati. The Graham is running between Clarksville and Paducah, getting as much as she can do. Her freight consists chiefly of tobacco, but hereafter she will have plenty of flour, as the Montgomery county mills are doing full work.

The *Gazette*, of the same date, has the following: The Cumberland at this point has risen five inches, and we report this morning twenty-eight inches on the shoals. Capt. Bob. Ferguson and Bill Mantz have chartered the Phil. Sheridan. Captain Snyder and Drewry, members of Smithland marine worthies, are negotiating for the purchase of the J. L. Graham. The Red Revenger, Capt. Nat. Drew's new Cumberland River packet, will leave Pittsburgh on the 15th instant. Captain McIvor and Capt. Egan leave to-morrow for Cincinnati on a tour of business connected with the Nashville and Northwestern Railroad.

The Mary Swan, Memphis to Evansville, picked up a snag at Devil's Elbow, which tore away part of her lower larboard guard, part of the cook house, and went through the boiler deck far enough to start the cabin bulkhead.

The Wamsutta passed Cairo Tuesday evening at 7 o'clock. The Emma No. 3 had passed seven hours before.

The trip of the Princess, from St. Louis to Fort Gibson, fourteen hundred miles and back, occupied only twenty days.

The Columbian left St. Louis Tuesday for Omaha, with 650 tons of freight and forty cabin passengers.

Messrs. Bauman and Pickering of St. Louis, have bought the Bridgeport for $6000, and will put her in the Arkansas trade.

We clip the following personal items from the Cincinnati *Enquirer*, of Thursday:

Capt. J. W. Chambers, of the steamer Belle, left for Pittsburgh yesterday. Captain Ed. Evans, of the Westmoreland, will remain in the city a day or two, when he will go home, to remain for a short time. Captain and clerk Baker, of the Sherman, now laid up at St. Louis, were in the city a day or two, and left for their home above Wheeling yesterday. Mr. Chas. Lorenz, of the Armadillo, we are sorry to learn, is quite ill at Wheeling, his home. Mr. Blood, well known in marine circles, has charge of the office in his absence, and Mr. J. N. Philes of the freight department.

In reference to the recent run of the Phil. Sheridan, the St. Louis *Republican* says:

As noticed by telegraph, the "race horse," Phil. Sheridan arrived at 3 a. m. yesterday, having made the round trip to Dubuque in the unprecedented quick time of 4 days and 19 hours. This is generally reported to be the quickest round trip ever made. The Phil. also went up Fever river to Galena. In emulation of the signs being put out by one of her late competitors, the gallant packet carried an immense one on the hurricane deck, detailing the deeds performed, and embellished with a portrait of a "grinning sucker" in a sadly dilapidated hat. On the boiler deck was displayed the spear and decorations that were lately carried by the Hawkeye. This spear was also embellished with the addition of some sort, whether "bird of the air or beast of the field" we were unable to decide. A sign was also displayed on the trophy, which read—"How are you, Hawkeye! Here's yer mule; come and get him." The Phil. left punctually last evening on regular advertised time, and says that, now that he has satisfied all that the Phil. is a racer, he is done, but will hereafter proceed on the even tenor of his way, never missing a landing or passing a hail. The Sheridan will arrive at this port on Friday night next, and leave punctually at 4 p. m., on Saturday, and will go through to St. Paul. Already a large number of excursionists have secured rooms for the next trip.

A St. Louis telegram to the Cincinnati *Commercial*, under date of Wednesday, gives the following particulars in regard to the burning of the G. W. Graham and Yellow Stone:

About half past 5 this evening, the steamer Yellow Stone, lying at the foot of the Cedar street, was discovered to be on fire, and in a few moments was completely enveloped in flames. The G. W. Graham, of the Memphis Packet Company Line lying just above, soon caught, and in a short time nothing was visible but the hulls, their upper works being a mass of burning ruins. The towboats Rose and Magnolia, and the packet Lady Gay, which were just above, were at one time in imminent danger, but were saved by the timely arrival of the towboat Gertrude, which boldly pushed alongside the burning mass, and, making fast to the Gay, succeeded in extracting them from their perilous position. The lines of the Graham having been cut or burnt off, she soon commenced to move down the stream, carried along slowly by the current, rubbing closely the entire length of the Mississippi, of the Atlantic and Mississippi Line, which was lying below, but without doing serious damage. Several other boats lying along the levee were grazed by the burning mass, but happily none of them caught fire. The Graham was finally picked up by a towboat and towed into the middle of the river, and left to her fate. The Graham had just returned from a trip to the mountains, and was laid up. She was valued at $25,000, and was insured for $15,000. The Yellow Stone has been running as a packet between this port and Omaha, but lately hauled off and laid up. Her value is $30,000; insured for $20,000. The origin of the fire is unknown. A large quantity of lumber, staves, &c., lying on the levee in the vicinity, took fire, and burned with great fury, despite the efforts of the firemen.

A Pomeroy telegram to same paper, same date, says: The river is again rising; it raised about one foot since last night, and is rising slowly. The St. James arrived and departed for Cincinnati. The Liberty No 4 left with a tow of salt for Louisville to-day. No boats passed up or down outside of the local packets.

The Evansville *Journal* says: The tide of cotton shipments are again setting in this direction, and the receipts are on the increase. This is the natural entrepot for all the cotton and a large proportion of the tobacco from the whole region south of Louisville, and it is only by a losing competition on the part of Louisville and Cincinnati steamboats that the receipts of both these great staples are not far larger. When the new bridge is built at the falls of the Ohio, and the Cincinnati boats are unnavigable by reason of the low water, the shipments of cotton and tobacco to this port will become far greater than ever before.
